## Mint State Barber Halves

by Peter K. Shireman, MD

Barber Half Dollars are a popular and fascinating series to collect and were produced from 1892-1915. Coins were struck at four Mints and the complete set has 73 different dates and mintmarks, excluding the 1892-O Micro O. Circulated sets can be completed by collectors fairly readily in lower grades with the current CDN Bid for a Good or better set coming in at \$1,125. Barber Halves are not very common in Mint State with a mere 12,142 certified by NGC and PCGS in all Mint State grades based on recent population reports (August, 2003 for PCGS and July, 2003 for NGC). There are a number of collectors like me building Mint State Barber Half Dollar sets. Recent auctions and direct sales of these coins in MS63 and up have been pushing the prices upward. Notable increases are easily found in the Heritage November 2003 Signature Auction. This auction featured the nearly complete Andy Geosits collection of Mint State Barber Halves. Many of the dates are rarely seen for sale in any Mint State grade.

Barber Halves have been discussed in previous *CDN Monthly Supplements*. Noteworthy are those authored by Gene Edwards (November and December 1978) and David Feigenbaum (May and June 1994). These back issues are full of information and are available for purchase from *CDN*. This report is to provide new and updated information about Barber Halves, particularly Mint State coins. I have the personal experience of building a complete Mint State set of gem and nearly gem certified Barber Half Dollars over the past ten years, a challenging and expensive undertaking.

Dealers and collectors now have many new tools not available to numismatists of the past. Population reports, the internet, and coin registry sets have brought forth amazing amounts of information that previously required in-depth study over many years and such knowledge rested with only a few individuals, mostly specialized dealers. The registry sets have made public the location of many of the finest known coins. The more open communication has resulted in collectors being in direct contact with each other, a potential challenge (or opportunity) to traditional coin dealers. I recommend that dealers look at this as an opportunity to reach more collectors and gain greater knowledge.

The purposes of this article are to update the ranking of Mint State Barber Halves, to acknowledge the increase in prices and interest in Barber Halves in this bull coin market, and to provide information about the impact of the NGC and PCGS coin registry sites. Armed with this information, coin dealers will be better prepared to deal with and understand the market and opportunities afforded by Mint State Barber Halves.

### Rarity Rankings of Mint State Barber Halves

The ranking of regular issue Barber Halves in Mint State (NGC and PCGS populations) from lowest to highest is provided in the table. An amazing change has happened in the number one position. This spot has been occupied by the 1904-S since the first such rankings were provided by David Lawrence Feigenbaum in his classic 1991 book, *"The Complete Guide to Barber Half Dollars."* The rarest now is the 1896-O with 29 coins found in all Mint State grades. The 1904-S is in second place at 31 coins and the 1901-S is

a close third at 32 coins. I like to consider these coins as the "big 3" of Barber Half Dollars, a concept mirroring the big three Barber Quarters (96-S, 01-S, and 13-S). We must keep in mind that the numbers of coins listed in the population reports compiled by NGC and PCGS may be flawed due to resubmissions with tags not returned. My opinion, based on watching the market of Barber Halves and following the number of coins in the ranking lists previously reported by others over the past 13 years, would indicate such manipulation not to be a very significant feature for most of the Barber Half Dollars in highest grades, particularly the three rarest coins. Very few 1904-S, 1896-O and 1901-S Mint State Halves have been certified in the past 13 years, and most of these come from known and previously uncertified collections (Eliasberg, Price, Pryor, Queller, etc.). Armed with the registry data from sets listed on the NGC and PCGS web sites alone, it is relatively easy to build condition census lists of coins like the 1904-S and 1896-O.

Coins that follow in the rank order are issues that are known to be difficult to find such as 1901-O, 1900-O, 1904-O, 1902-S, 1907-S, and 1897-O. A tie for position ten is between the 1908-S and 1897-S. This group includes rare coins, but the numbers certified are nearly twice that of the big three. The jump in price from MS64 to MS65 is huge for most of these coins, and such increases invite resubmissions of coins. Many highest graded Mint State Barber Halves are locked up in collections by a relatively small group of individuals that include: Dr. Steve Duckor, Dale Friend, John Hugon, George Szatkowski, and me. These sets are all viewable by the public on the PCGS and NGC websites. Details of individual coins, their pedigrees, and some images are also posted. This group of individuals is interested in accurate population figures and so the population data is quite good for most of the high-end coins.

The table shows the low total number of Mint State examples. These coins were mostly put into circulation when released and very few were saved at the time of issue. The series overlaps the time period when collectors went from collecting only one coin issue per year to collecting all available issues by mintmark. The 1892 issues were saved in greater numbers as the new first year of Type, and the otherwise hard to find circulated 1892-O and 1892-S are surprisingly available in Mint State. These large coins are very susceptible to damage and the large flat area of the cheek and neck is easily damaged, particularly from album slide marks.

The nine most common dates and mintmarks (12% of the 73 coins) account for over 1/3rd of all certified Mint State coins. The top eighteen most common coins (24% of the 73 coins) account for a little over 1/2 of all Mint State coins. That leaves very few coins among the remainder of the issues. The 1892 alone accounts for about 10% of all certified examples, and this percentage remains true for nearly every Mint State grade. In the rank list of the 73 regular issue coins, the median number of coins is for the 37th ranked coin and is 126. These are all extremely small numbers of coins compared to other coin series commonly collected.

### 1892-O Micro O Variety, the Rarest Barber Half Dollar

A very rare variety is the 1892-O with Microscopic O mintmark. This variety is believed to be due to a Mint employee erroneously using the mintmark punch intended for the Quarter die. Very few micro O's were released by the Mint. Michael Flanagan of the Barber Coin Collector's Society has compiled the best census information about 1892-O Micro O Half Dollars to date. As of today there are 42 known examples with most grading about good to good. The

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet), both reporting on Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight seen. The coins may be certified or "Raw" (uncertified) but the grading MUST ADHERE to the current standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market such Bids may include side payment or a fee as a condition to certification for a particular service. Bids for a "Raw" coin may be higher or lower than a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

finest known specimen is the Eliasberg coin graded PCGS MS68 followed by the Queller specimen graded MS67. Two coins presently grade MS65, one in the Steve Duckor collection and the other is the Price specimen in an anonymous collection. My example is MS63. Two coins are known in MS62, one is owned by George Szatkowski. That makes a total of seven Mint State examples currently known. The Micro O coins often have proof like surfaces in Mint State. Based on my own personal knowledge of the prices paid at auction and by private transaction for many of these coins I estimate the wholesale value for the 1892-O Micro O as follows: MS68 \$150,000, MS67 \$125,000, MS66 \$100,000.

### Impact of PCGS and NGC Set Registries

The invention of recording sets of certified coins in a public format viewable on-line has resulted in a number of interesting phenomena. The psychology among all of us drives us to want to be the best that we can. The top-graded "registry quality" coins have gone up tremendously in the past few years, particularly for the most popular and contested sets. Many dealers recognize the desire of collectors to want the best and it is often stated in ads when a coin is "of registry caliber." Such notions have become a powerful marketing tool for coins.

Although the PCGS registry started before the NGC registry, both have a large number of sets listed. Clearly the concept has been very popular. Both registries allow listing of email addresses. This has lead to contact among collectors with similar interests. Several of the other collectors have been in contact with me leading to extensive sharing of information and trading of coins.

### Recent Price Trends of Mint State Barber Halves

The prices of Mint State Barber Half Dollars in MS64 and up have had some noticeable increases in the past 18 months paralleling the robust coin market noted by many coin dealers and collectors. Prior to this increase, the prices of Mint State Barbers had remained very consistent for about 8-10 years. As usual, supply and demand drive the pricing. At the high-end, not that many coins are available at any given time and demand is hard to judge, but is certainly strong right now. A number of very nice collections of Barber Half Dollars have been brought to market in the past 7-8 years, mostly distributed by auction, and include the holdings of: James Pryor, Louis Eliasberg, Charles Mamiye, Thaine Price, the David Queller Family and Andy Geosits. What is interesting and expected, the prices have increased for the key dates the most, and for

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

virtually all dates over time, particularly for the nicest coins with good eye appeal.

At least one dealer has recently advertised higher buy prices for many of the Barber Halves in MS64 and MS65 and this has resulted in additional attention to this interesting series of coins. Increased buy prices do not always yield coins, and it is difficult for any dealer to carry much of an inventory of Mint State Barber Halves due to rarity of the coins and the current strong demand. With the increased Bids published in the CDN over the past 18 months more Mint State Barber Halves are showing up in large auctions and prices realized are strong for properly graded coins, particularly the better dates.

### Future Prospects

Barber Halves are attractive and interesting coins that remind us of an era 100 years ago. The rarity of these coins in Mint State is astounding compared to other collectible series from the same historical time. They have a strong collector following. Dealers interested in handling these coins can do well to understand the populations of Barber Halves in Mint State. Certified populations differ considerably from mintage figures as there are so few that remain in nice condition. My advice is to buy **quality certified**

examples and know the market. As with other series, some Barber Halves are hard to find fully struck, mostly the New Orleans issues, and the 1902-O, 1901-O, and 1900-O are typically weakly struck. Most collectors are looking for originally toned or white specimens and most avoid dark coins. Knowing that the 1896-O, 1904-S, and 1901-S are the big 3 Barber Halves in Mint State provides a basis for dealers to aggressively buy and price such coins. Some collectors will want to own a Barber Half as a Type coin rather than trying to build a complete set. There are many issues in the series that are difficult and provide many opportunities for dealers to supply needed coins to collectors.

It is important for dealers to build strong relationships with customers building a set. My own personal experience with Harry Laibstain has been excellent. We have developed a strong working relationship that benefits us both. Dealers can assist collectors by previewing auction lots, looking at coins in other dealers' inventories to determine the true quality of coins under consideration for purchase, and providing an outlet for selling duplicates or an entire collection. None of these services are free, but they are worth it to the collector and can save tremendous costs by avoiding low-quality coins. I consider it well worth it to pay a dealer with a good eye to help me choose the best coins.

THREE-CENT PIECES (Nickel)Complete set (no 77, 78, 86, or 87/6), Good-Very Good BID \$1,1

## BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Roosevelt series, the rolls in the late 50's tend to be dark - these bring lower prices, "gem" full steps" rolls (when available) bring higher prices. In the Mercury series, "gem" full steps" rolls are worth more than listed prices - particularly the pre-1944 issues. Washington D.C. dollar "put together" bring lower prices. Gem roll series (Washington, Liberty rolls) particularly the S-mint issues are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

# COUNTERFEIT COIN BULLETIN

An invaluable guide that warns of deceptive counterfeit and altered coins in the numismatic marketplace.

- Learn about dangerous fakes.
- Avoid costly mistakes.
- Ensure the integrity of your personal collection, museum cabinet or dealer inventory.

Loose-leaf, self-indexing

Single copy price: \$4.00

### TOP 10 Of the Top 100

by Michael S. Fey, Ph.D. and Jeff Oxman

In our first *Greysheet* article on January, 11, 2002, we talked about the *Top 100 Morgans: The Past and the Future*. We learned that in most 20<sup>th</sup> Century U.S. coin series, "*the rarer, more desirable die varieties tend to command higher premiums than the key dates*". We mentioned that the important motivators for collecting or investing in Morgan Dollar varieties was the "*Thrill of the Hunt*" as well as the "*Profit motive*". And, we talked about how supply and demand are an important determinant of pricing for these rare die varieties. This article will focus on what we feel are the *Top 10* of the *Top 100* varieties, the best of the best from each category or class of variety feature, presenting our rationale for the selection of this elite group of coins.

First, it's important to note that the *Top 100* Morgan Dollar varieties will now, more than ever, become part of the collecting public with the release of Q. David Bowers new book, "*Morgan Dollars-A Complete History & Price Guide*." This is expected to expose legions of new collectors to rare VAM varieties. Demand for the better *Top 100* varieties is certain to rise.

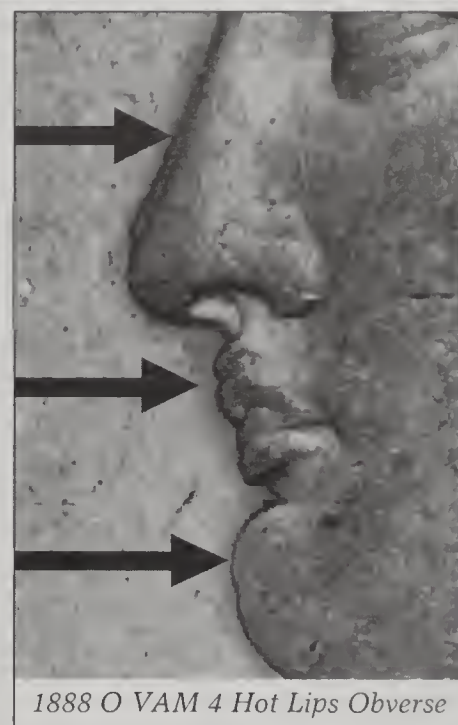

In order to present *Greysheet* readers with information that will ultimately help them take advantage of this burgeoning interest in VAMs, we've selected the *Top 10* of the *Top 100* Morgan Dollar varieties—the rarest, most desirable and hottest Morgans Dollar varieties.

**1878 8TF Ultra Rarities**—*Ultra Rarity* is a name attached to more than a dozen of the rarest 1878 8TF Morgan Dollars varieties, coins that variety specialists consider the *caviar* of Morgan Dollars. 1878 8TFs were the intended design of Mint engraver, George T. Morgan, and they come in a higher relief than all other Morgan Dollars coined thereafter. They also exhibit some of the most spectacular one or two-sided mirrored cameos of all Silver Dollars. Listed by variety in Fey's illustrated 8TF Viewfinder™, and Oxman's 1878 8TF Variety Attribution Guide, prices for the *Ultra Rarities* have commanded upwards of \$6,500 for specimens in grades as low as Extremely Fine. However, the one in particular that captures the imagination of *Top 100* collectors, is one of the keys to the *Top 100* set, the 1878 8TF VAM 14-11. This *ultra-rarity* exhibits two spikes extending from Ms. Liberty's eyes and is known as *Wild Eye Spikes* (photo featured in the January 2002 *Monthly Supplement*). With less than a dozen specimens known in *all grades* and fewer MS specimens, this coin is an excellent representative of the 1878 8TF *ultra rarities* and a solid *Top 10* pick.

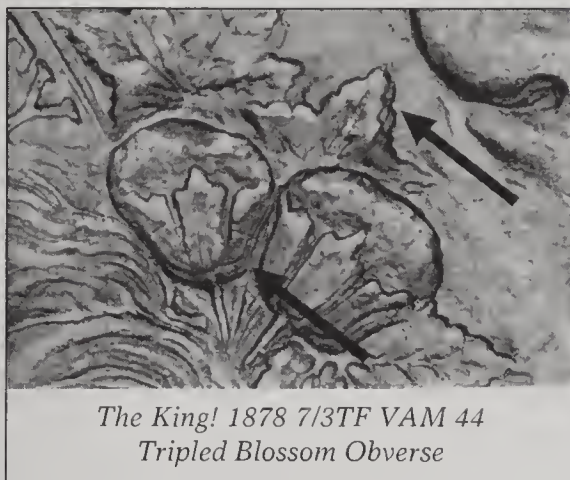

**1878 "So-Called" 7/8 Tail Feathers (TF)**—Although the 1878 7/3 TF VAM 32, with 3 Tail Feathers extending beneath the normal 7 TFs on the reverse Eagle is a close 2nd in rarity of the 16 generally accepted "so-called" 7/8 TF varieties, an easy choice for the *Top 10* is a coin that specialists have dubbed *The King* of Morgan Varieties, the 1878 7/3 TF VAM 44. It has strongly tripled cotton blossoms and leaves on the obverse (photo 1). With fewer than a dozen MS specimens known, this coin is the stopper to completing an MS set of 7/8 TFs, and a key to the *Top 100* in *any grade*. The VAM 44 is most often seen in prooflike condition with a radial die crack extending

from the rim above the "E" of E PLURIBUS UNUM. This crack becomes a "Y" in the field across from Ms. Liberty's eyeball, a sure sign that the obverse die failed early in the striking process. This accounts for the extreme rarity of the VAM 44, and it's *ultra-rarity* in MS condition. The 7/3 TF reverse with strongly doubled legs on the Eagle can also be seen on a VAM 33, which is one of the more common "weak" so-called 7/8 TF varieties. The strength of the tripling on the obverse, combined with the fact that this is a rare 7/8 TF variety make this one of the most popular of all the *Top 100* varieties.

**1878 S B<sup>1</sup> Reverses**—The variety feature presented here is what specialists call the B<sup>1</sup> reverse, which was an early reverse design used on some 1878 7TFs, some 1878 CC, and a few 1878 S varieties. It can easily be identified by its long center arrow shaft with the center nock or tip of the shaft extending further out than normal. The VAM Encyclopedia only listed three such varieties in its 1991 edition, but now some 9 different varieties are known. The only way to attribute these varieties is through *A Quick Attribution Guide to the 1878 S B<sup>1</sup> Reverses* published by RCI as a past issue of *Top 100 Insights*. There are less than 250 1878 S B<sup>1</sup> reverse specimens known in *all grades* spread among all nine different varieties, making this class of varieties quite rare and special. There were several newspaper

1888 O VAM 4 Hot Lips Obverse

The King! 1878 7/3TF VAM 44  
Tripled Blossom Obverse

accounts in 1878 that described the striking of these first San Francisco Silver Dollars, and there was mention of dies failing early in their production runs. The average number of coins known per variety is presently a mere 30, with one of the more recently discovered varieties having only a single specimen known in VG. After careful deliberation, we decided to rank this whole class of variety as a *Top 10*. Talk about rarity! For all nine varieties, we might mention that there are only three specimens known in the lofty grade of MS.

**1879 S Rev '78 Varieties**—Although this is considered by most dealers and Morgan Dollar collectors as a classic *Redbook* variety, it wasn't until publication of Dave Wang's book, *A Guide to the 1879-S Reverse of 1878 Morgan Silver Dollars* in 2001, that we really had a better idea about the 15 existing varieties. Previously, 21 varieties were cited in the VAM Encyclopedia, and some of these varieties are proving to be quite rare and elusive. Indeed, some are already commanding a significant premium over the existing premium prices for 1879 S Reverse '78 varieties. A case in point, a new variety labeled as a VAM 34B was recently discovered that has already brought a premium in excess of \$500 in a low circulated grade. So, the hunt is on for this new pick as a *Top 10* variety.

**Over Mintmarks and Overdates**—There are so many great varieties from which to choose! There are the 1880 VAM 6 "Spikes", VAM 7 "Crossbar" and VAM 8 "Ears" overdates, the 1880 CC VAMs 4, 5, and 6 "8/7" overdates, the 1880 VAM 4, 5, 6A and rare 6B "8/7" overdates, and the 1880 S VAMs 8, 9 and 10 "8/7" overdates. And these are just from one year, 1880. In addition, the classic *Redbook*

ADVERTISING

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet), both report the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market, such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee. Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

and Greysheet listed 1882 "O/S" varieties, as well as the 1887 and 1887 O "7/6" over mintmarks are important and widely collected varieties. And of course, the 1900 "O/CC" varieties are already part of any mainstream Morgan Dollar collection.

In particular, the 1880 VAM 8 "Ears" deserves honorable mention as a very rare overdate in any grade, as does the 1900 O/CC VAM 9 and the recently discovered 1900 O/CC VAM 7A with die chips above the 9 in the date. However, our selection of a Top 10 variety from this class of varieties would have to go to the 1882 O/S Early Die State VAM 4 "Recessed O/S". Fewer than half a dozen specimens are known of this typical prooflike coin, and there are currently no known specimens in MS. On this variety, it's not what you see that makes it great, but what it represents as one of the most elusive keys to the entire Top 100 set in any grade. Want an example? A sole AU specimen from the Binion Hoard brought in excess of \$2,000 at auction!

**Major Doubled Dies**—These were among our easiest Top 10 picks. The 1888 O VAM 4, aptly named the "Hotlips" variety, is the most "eyeball noticeable" Doubled Die obverse in the entire Morgan Dollar series (Photo 2). In grades below AU, this classic Redbook variety is only scarce (R4). However, in AU or finer condition it is both rare and desirable (high R6) and is still highly undervalued. This variety is exceedingly rare in MS with only one certified BU specimen, an ANACS MS61. The spectacular "Hotlips" variety can still be purchased for about \$750 in AU, but don't expect that to last too long.

The classic Redbook variety, the 1901 VAM 3 Doubled Die reverse, is also referred to as "Shifted Eagle" or "7/7 TF" variety. It exhibits the most massive "eyeball noticeable" doubled reverse in the entire Morgan Dollar series, and 1901 is, itself, a better date in higher grades. It's tough enough to find in any circulated grades (R5, possibly R6), but becomes a remarkable Top 100 variety in AU or better. It's exceedingly rare in BU condition, with only two MS specimens graded by ANACS, an MS60 and MS61.

**Major Die Breaks/Die Gouges**—Again, there are many great varieties from which to choose. Of particular note is the well-known 1890 CC VAM 4 Tailbar, with its prominent die gouge between the wreath and arrow feathers on the reverse. This variety feature is displayed near the legendary Carson City "CC" mintmark. The Tailbar variety continues to be in great demand and has posted some remarkable price gains in all grades, especially in MS in the past couple of years. Also popular is the rare 1891 VAM 2A with a Doubled Ear and Mustache die break extending below Ms. Liberty's nose. However, no other coin has generated as much excitement as the 1888 O VAM 1B "Scarface Liberty" variety. Collectors line up to acquire one, and every time they trade, they trade up. Don't expect to find this variety in circulated grades. It is often found in MS, likely the result of a small number of specimens bagged at the end of a production run from a die that was breaking apart. A few dozen Scarfaces may have been included in bags from the GSA hoard released in the 1980's.

**Micro "O" Mintmarks**—These include Morgan Dollars from 1880 with the "Micro O" mintmark— the most common mintmark that year and the 1899 O VAMs 4, 5, 6, 31 and 32 which are scarce in AU or better and rare in MS, as well as the 1896, 1900 and 1902

Micro "O" varieties which are rare in any grade. There has been some discussion as to whether these latter three dates were struck from non-mint produced dies, and although this has not been substantiated by laboratory analysis, debate continues. But in any case, all these "Micro O" varieties are quite popular, and are most often found in low circulated grades. Indeed, to find one of these coins in AU or better is a rare occurrence. The rarest of the three post-1899 dates is the 1902 O VAM 3 "Micro O". There are only four AU specimens of the 1902 O "Micro O" certified by all grading services with the finest known being AU53.

Top 10 of the Top 100 Morgan Dollar Varieties						
Variety Top 100 Variety	Acquisition Name	Estimated Grade	Cost**	1997	% Change	
1878 8TF VAM 14-11	Wild Eye Spikes	MS or better	\$7,000	\$1,000*	700	
1878 7/3 TF VAM 44	The King!	MS or better	\$5,000	\$2,000	250	
1878 S B <sup>1</sup> Reverse Var.	Long Arrow Shaft	MS or better	\$5,000	unknown	NA	
1879 S Rev '78 VAM 34B	Polished Hair	XF or better	\$500	unknown	NA	
1882 O/S EDS VAM 4	Early Die State	AU or better	\$2,000	\$200	1000	
1888 O VAM 4	Hot Lips	AU or better	\$750	\$350	200	
1888 O VAM 1B	Scarface Liberty	MS or better	\$2,000	\$200	1000	
1901 VAM 3	Shifted Eagle	AU or better	\$1,500	\$500	300	
1902 O VAM 3	Micro "O"	AU or better	\$900	\$600	150	
1903 S VAM 2	Small "S"	AU or better	\$2,000	\$1,000	200	

**Small "S" Mintmark**—Last, but not least in our line-up of the Top 10 of the Top 100 Morgan Dollar varieties is the 1903 S VAM 2 "Small S" variety. Importantly, it's the only known Morgan Dollar with this particular "Small S" mintmark, as distinguished from the common "Micro S" mintmarks normally seen on 1878s and 1921 S Morgan Dollars. Again, the 1903 S is a better date, with but only one reverse die was used to strike the "Small S" reverse. Tough to find in any grade (R5), the 1903 S VAM 2 "Small S" is very rare and desirable in AU condition (R7). No MS specimens are known to exist, but if one surfaced we expect there would be intense competition to acquire it.

\*Replaced the 1878 8TF VAM 11 as Top 100 in 1998.

\*\*Prices for most coins listed above have not been recently tested and may trade substantially higher.

If all this VAM variety stuff still has you confused, it shouldn't. It's as simple as buying a few books and matching the key obverse and reverse features on a coin using the pictures in these references. If you can't acquire the books because they're sold out, or if you don't have the time to go through your Morgan or Peace Dollars, especially the more difficult year of 1878, then do as many other dealers have done, just ship them to us for attribution. We attribute all premium coins, price them accordingly, and either purchase them or return them to their owners in a day or two ready for retail sale. With AU-MS specimens of the ultra rarities trading in excess of \$5,000, it pays to either learn how to attribute the better ones or get help. It's a good business practice to know something about VAMs, and it can only help increase your bottom line.

# Where have all the great coins gone?

## Bowers and Merena's Baltimore Coin and Currency Convention Auction! — March 11-13, 2004

If you've been frustrated by the diminishing supply of top quality coins on the market, fret no more. It's quite possible you'll find what you are looking for at Bowers and Merena's Baltimore Coin and Currency Convention auction, March 11-13.

While many sources are sold out of everything but the felt liners in their cases, a sumptuous selection has been assembled for this sale, which is impressive for both its quality *and* quantity. Bid and buy at the price *you* determine on coins such as those shown here.

## RARE GOLD

If you are a marketer of rare United States Gold coins and you do not receive my wholesale price list, you may be costing yourself money.

I'm one of the largest wholesalers of rare United States Gold coins in the world. I have over twenty years experience in wholesale gold coin sales.

Each week, I put out a "user-friendly" inventory list which contains over \$1 million of choice, fairly priced rare U.S. Gold coins.

I specialize in PCGS and NGC graded U.S. Gold coins struck from 1795 to 1900 in Very Fine to Mint State grades.

Comprehensive support material is available. I can increase your sales and make it easier for you to sell rare U.S. Gold coins.

### BUYING ALL BETTER DATE GOLD ESPECIALLY WANT THE FOLLOWING TWENTY DOLLAR GOLD PIECES

WHETHER IT'S A \$4,000,000 1804 DOLLAR  
OR A MODERN ISSUE PROOF SET...

# IF YOU HAVE COINS TO SELL...

The only strategy that makes sense...is to call the King Of Cash  
before you actually sell your coins!

Nobody spends more money buying U.S. coins from collectors and investors like you than **Spectrum Numismatics!** And the nice thing about **Spectrum** is we desperately need to buy all of your coins. That's why our name is **Spectrum**...we buy it all!

• **MODERN COIN DIVISION** With the acquisition of Lee Cook, renowned Modern Coin expert, **Spectrum** urgently needs to buy all the Modern Coins it can accumulate! While **Spectrum** has always bought Modern Coins in limited quantities, we now need to spend millions of dollars on Modern Eagles, Proof Sets, Mint Sets, BU Rolls, and all your Modern Issues!

• **MARKET KNOWLEDGE** When you deal with **Spectrum**, you deal with **numismatic** professionals. We have the knowledge that covers the spectrum, whether it's a collection of early United States rarities, a hoard of pre-1950 20th Century coins, Patterns, Modern Issues, or a large and diverse holding in all areas of the market. We are interested in buying. Period.

• **IMMEDIATE FUNDS** There is no waiting! You don't have to wait until we sell your coins. You don't have to wait while we call in an outside expert to evaluate your coins. Why? Because **Spectrum** has the customers, we have the money, we have the experts, and we have the experience. Nobody pays more...nobody pays faster...nobody makes it easier for you to sell your coins.

• **GENEROUS FINDER'S FEES** If you find a coin deal that's too large, too complicated, or one you don't want to get involved in for any legitimate reason, you don't have to leave the money on the table. Call **Spectrum!**

• **HOW TO CASH IN!** If you want to sell your coins – any and all coins – for absolute top dollar, pick up the phone and call today to get your piece of the action and your share of the cash! Call collect and tell them you want to talk to the **King of Cash**.

To contact a **SPECTRUM** representative, call us collect at (949) 955-1250. Do it today!

# Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

## 8 GREAT REASONS TO JOIN TODAY!

### 1 12 ISSUES OF NUMISMATIST.

Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

### 2 BORROW THE BOOK BEFORE YOU BUY THE COIN.

The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

### 3 LEARN WHAT THE EXPERTS KNOW!

The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

### 4 SAVE MONEY.

The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

### 5 INSURANCE.

Insure your collection for as little as 50 cents per \$100 of value. Your homeowners' policy can't match the rates or the coverage.

### 6 GRADING AND CONSERVATION SERVICES.

Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

### 7 ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.

Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

### 8 MEDIATION SERVICES.

Mediation for numismatic disputes is available through the ANA.

### PROOF-ONLY GOLD COINAGE THE RAREST OF THE RARE

by Dr. Robert Loewinger and Douglas Winter

The Gold coin collector market is very strong. Many of Dr. Loewinger's patients, after they see his Proof Gold coinage book in his waiting room, discuss Gold bullion and indicate they are going to purchase some. Additionally, the State Quarters program has caused a tremendous increase in the number of collectors. The surge in the price of Gold coupled with the demand for Gold coins suggest that prices for Proof Gold coins—and especially Proof-Only Gold coins—will escalate. We believe that some of these people will develop an interest in collectible Gold coins and some of the more affluent in Proof Gold. The most affluent of Dr. Loewinger's patients have even broached the subject of a fund focusing on collectible Gold coins.

At the recent FUN show we met several Proof Gold collectors, as well as several people who have purchased Dr. Loewinger's book. They indicated that they intend to start collecting Proof Gold. Consequently we are in the process of starting a Proof Gold Collectors Club. The internet has made communication among diverse collectors very easy. Thus, it will only take a relatively small number of collectors to form a club.

Proof Gold is indeed the "caviar of numismatics." These are by far, in our opinion, the most beautiful coins ever made by the U.S. Mint. Except for the Modern Gold Commemoratives, these early Gold Proofs were made from 1820 to 1915. Other than a few rare Branch Mint issues and some Modern Commemoratives, Proofs were all struck at the Philadelphia Mint. Gold, because it is a noble metal, shows a minimal amount of chemical change over the years.

Proof Gold coins are very rare and have a much lower mintage than business strike coins. Because they were manufactured for the collector, they usually are better preserved than their business strike counterparts. Proof coins have special characteristics. First, they are made with specially prepared polished dies and planchets. They are struck with multiple blows of the dies on special presses. Brilliant Proofs have reflective fields that are very bright and shiny with devices that are sometimes frosty (this is known as a "cameo effect"). Matte Proof, Saint Finish Proof, Sandblast Proof and Roman Finish Proofs of the early 20th century are known as well. Proofs have squared edges and a sharper impression than is usually seen on business strikes.

Proof Gold coins almost always have a business strike counterpart. Pattern coins, such as the \$4 Gold Stellas, usually do not have a business strike counterpart. However, there are some Proof Gold issues that do **not** (for at least that denomination and year) have a business strike counterpart. These are known as "Proof-Only" coins. For these, there was only a Proof coin manufactured with no business strike counterpart.

The collector who is trying to complete a date set of \$2½ Quarter Eagles,

\$3 Gold pieces, \$5 Half Eagles, or \$20 Double Eagles would have to obtain certain "Proof-Only" coins to complete their set. Thus, these "Proof-Only" coins are the keys for a date run. These obviously have a larger collector base than those years that offer both, and as a result they demand a significant premium. Thus, because of their relative rarity (when compared to business strikes) and the demand from both the Proof Gold collector and business strike date set collector, the "Proof-Only" coins should appreciate more than the "generic" common Proof Gold from the 1890's and 1900's.

The 10 Gold coins that are usually listed as "Proof Only" coins are shown in the table below. These coins have mintages that range from a low of 4-6 to a high of 121. The total mintage for these "Proof-Only" coins is just 515-517. The business strike design counterpart mintages for the above designated coins are also listed below. Thus, it is very clear that the "Proof-Only" issues are very rare relative to their business strike counterparts.

Among the 10 Gold coins that are usually listed in references as the "Proof-Only" coins, there are two that are controversial and are not always regarded as "Proof-Only" coins. One is the 1841 \$2½ coin, which is often referred to as the "Little Princess." It may have a limited number of business strikes extant and thus is not a "Proof-Only" coin. From auction records, there are at least 17 examples that were listed as circulated business strikes. There was even one recent auction that listed an 1841 \$2½ coin as an Extremely Fine 45. It sold for \$86,250. The cataloger for this sale examined the "Proof-Only" status of the 1841 \$2½ and came to the conclusion that it is **not** a "Proof-Only" issue. The authors of this article believe that most of the coins were "business strikes" and were made from polished, prooflike dies.

The basis for the traditional "Proof-Only" status of the \$2½ 1841 is the contemporary Philadelphia Mint record that shows that no Quarter Eagles were struck for circulation in the year 1841. However there are several reasons why one can doubt this "Proof-Only status" of the 1841 \$2½ coin. The number of surviving coins ranges from a low of 15 to a high of 30. If all of these were actually made as Proofs rather than prooflike business strikes, then the high number extant would be unusual. During this decade of the 1840's, there are usually less than 5 Proofs known for each year. David W. Akers believes that there are 3-5 1841 Quarter Eagles extant that are actually Proofs.

The most likely scenario is that some Proofs were struck and then

Proof-Only Gold Coins	Mintage	NGC Pop	PCGS Pop	Total	Recent Auction Prices Realized
1841 \$2½	20	5	8	13	PCGS PR64 - \$178,250 (Bowers and Merena, May 2000)
1863 \$2½	30	7	12	19	PCGS PR64 - \$49,450 (Heritage, January 2004)
1873 Open 3 \$3	25	6	20	26	PCGS PR65 Deep Cameo - \$55,200
1875 \$3	20	8	9	17	NGC PR65 - \$126,500.00 (Heritage, January 2004)
1876 \$3	45	22	46	68	PCGS PR65 Deep Cameo - \$41,400 (Heritage, March 2003)
1887 \$5	87	11	13	24	PCGS PR64 CAM - \$41,400 (Superior, May 2003)
1804 Plain 4 \$10	4-6	3	3	6	One is currently for sale at \$1,000,000 +
1883 \$20	92	17	5	22	PCGS PR65 - \$172,500 (Heritage, January 2004)
1884 \$20	71	7	8	15	PCGS PR66 Cameo - \$149,500 (Heritage, January 2004)
1887 \$20	121	12	19	31	NGC PR64 Cameo - \$63,250 (Heritage, January 2004)

Business Strike Denominations	Low Mintage	High Mintage	Usual Mintage
\$2½ Liberty	246 (1854-S)	1.4 million (1853)	10's of thousands to 100's of thousands
\$3 Princess	App 500 (1873 Cl3)	82,304 (1878)	Several thousand to 20 thousand
\$5 Liberty (all Types)	200 (1875)	5.7 million (1881)	10's of thousands to 100's of thousands
\$20 Liberty (all Types)	571 (1882)	6.25 million (1904)	10's of thousands to 100's of thousands

CIRCULATION & BETTY MORRIS  
ADVERTISING

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both published at a Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins. The coins may be certified or "Raw" (uncertified) but the grading MUST ADHERE to the current grading standards. Bids reported also consider activity in the certified SIGNATURE market such Bids may include a premium for a coin attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

the Proof dies were utilized to strike some coins that were meant for circulation. The first struck coins, therefore, have prooflike surfaces.

The other coin that is controversial and also should not be listed as a "Proof-Only" issue is the 1804 \$10 Eagle. There were 1804 \$10 Eagle Crosslet 4 business strikes made in 1804. The 1804 \$10 Eagle Plain 4 Proof was actually struck in 1834 and is not a restrike as stated by some. The term "restrrike" implies using the same die that was previously used to strike a coin. It is actually not a restrrike because an entire new die was made to make this diplomatic presentation piece. The diagnostics are as follows: the Proof 1804 coin is missing the bottom serif in the "E" appearing as an "F". It has a Beaded border and a Plain 4 instead of the Crosslet 4.

Among the other eight "Proof-Only" Gold coins, each is a part of numismatic history and has an interesting story about them.

The 1863 Quarter Eagle is one of the most famous of all Quarter Eagles. In 1863, no business strikes were struck and only 30 Proofs were Minted for collectors. It is felt that there are only about 15-20 are extant. Twenty years after this coin was issued, T. Harrison Garrett obtained an example for his collection. At that time, this coin was considered to be very rare and was a highlight of his collection. There is only one variety of the 1863 \$2½ coin. The ear of Liberty is filled.

The 1873 Open 3 Proof \$3 Gold coin has an official mintage of 25. This production figure would make this coin as one of the greatest of all American coin rarities. However, it is widely felt that there are more than 25 extant. The \$3 1873 Closed 3 has Proofs and business strikes in existence. A few Proof restrrikes of the Closed 3 "Dished" variety are also known to exist as well.

The 1873 Open \$3 Proof has an obverse which is the same as that seen on the 1874 Proofs: most of the designer's initials (JBL) are gone; there is a faint die scratch that slants up to the left from the left top of the "F" to rim; base of "F" is thin and the dentils are well apart. The reverse has a low date and an Open 3, greatly attenuated terminal tassels, a die scratch from the "A" above "73" in the date almost to the incomplete right bow and a fragmented tip remaining in the leaf at the left of the date. There are nearly vertical die file marks in the left bow and die polish in the ribbon ends.

The 1875 \$3 Proof has an official mintage of 20. Walter Breen stated that it is "one of the half dozen most famous rarities in American coinage." He also stated that there are about 30 extant and that there were two dies used to strike these coins. The original mintage produced 20 and additional examples were struck with a different die at a later date. In this book, "United States Gold Coins An Analysis Of Auction Records Volume III" by David W. Akers it says, "next to the legendary 1870-S, the 1875 is the most famous and highly desired \$3 Gold piece." This was the first U.S. Gold coin to ever sell at auction for over \$100,000 and it has been the highlight of some of the most famous collections.

The first die used on Proof 1875 \$3's is noted as having a die scratch from the upper left serif of "F" in "OF" (only visible under the microscope). The lower half of the first "S" in "STATES" is filled, with a low date on the reverse. The leaves to the left and right are perfectly formed. The left loop of the reverse ribbon is mostly filled. The second die, which was probably used to strike Proofs at a later date, has prominent die rust marks on "OL" in "DOLLARS". The lower Wreath is flat.

The 1876 \$3 Proof Gold piece has a mintage of only 45 specimens. However, it is felt that there are 25-35 extant.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

www.greysheet.com • cdn@greysheet.com

The diagnostics for this issue are as follows: more than half of JBL is gone. A tiny rust pit is seen behind the eye and there is no die rust between "LI" or throughout the feathers. The letters are clear except in "AMERICA", where "A" (M) has bases joined and triangle filled, "R" filled and (C) "A" has triangle filled. The top and bottom dentils are apart while the rest are joined. On the reverse, the right upright of "1" is below the center of upright of the "L" of "Dollars".

The 1887 \$5 Half Eagle is the only Proof-Only issue of this denomination. It has a mintage of 87 pieces. Walter Breen believed there were 17 specimens extant while David Akers suggested that there are 30-35 coins extant. The 1883 \$20 Double Eagle is one of three Proof-Only Double Eagles and is the second rarest. The mintage figure is 92 coins. It is believed that there are approximately 15-20 extant. Two of these are in the Smithsonian Institution National Numismatic Collection and one is owned by the American Numismatic Society. Many of the classic collections formed years ago lacked the 1883 Proof Double Eagle. The 1883 \$20 has the "1" in the date centered between the Bust and the border. The left base of the "1" is about over the right edge of a dentil. The numerals are even. The right edge of the "3" is about in line with the right side of the lowest curl. On the reverse, the back of the eagle's neck is rough and the fleur-de-lis below the beak of the eagle shows fragmentation from die polishing.

The 1884 is the second coin in the Double Eagle "Proof-Only" series and is the rarest of the three. It had a mintage figure of 71. Of the known specimens, three or four are in museums. Several famous collections, such as F.C.C. Boyd and William Forrester Dunham, lacked an 1884 Double Eagle. All 1884 Double Eagles show a peculiar grainy texture on the portrait of Liberty which runs from the inside of the ear, down past the outside of the hair curls, to above the designer's initials. This is in the die. High quality examples show very deep cameo contrast between the devices and the fields as well as an impressive "orange peel" surface.

The last in the series of the Proof-Only Double Eagles is the 1887. This coin had an official mintage of 121. It is the most "common" of the Proof-Only Double Eagles. These coins show a few Mint-made striking characteristics which readily identify them: there is an area of discoloration on the throat of Liberty. There is usually an "orange peel" surface and good cameo contrast between the devices and the field.

The reverse is the same as the 1886 Double Eagle and shows a break in the tail feathers at the far right (near the arrow shafts) as well as the left petal of the fleur-de-lis below the beak of the eagle being disconnected.

The rare "Proof-Only" Gold issues from the 19<sup>th</sup> century form one of the most interesting and challenging areas for collectors to focus on. It is our sincere belief that as more and more upscale individuals enter the market searching for the "crème de la crème," there likely target will be these beautiful and undeniably rare issues.

# *When It Comes Time to Sell, Let Our Success Be Your Success*

Whether your collection is worth \$5,000, \$50,000 or more than \$50,000,000, the same firm that showcased the world's most valuable collections will showcase your coins as well. Consider the following:

**Four of the five most valuable United States coin collections were sold by Bowers and Merena Galleries.** In first place is the Eliasberg Collection for \$45,000,000, followed by the Harry W. Bass, Jr. Collection at \$38,000,000. The Garrett and Norweb Collections were also sold by our firm and rank as the third and fifth largest United States collections ever sold, realizing \$25,000,000 and \$20,000,000 respectively.

**Of the top ten world record prices for U.S. coins sold at auction, Bowers and Merena Galleries has sold four**—including the first coin ever to break the million dollar mark, the Eliasberg 1913 nickel sold in May 1996 for \$1,485,000!

**Over 50,000 active customers and growing.** Our corporate affiliation in the collectibles arena provides us with the most important and largest list of collectors ever assembled who will be invited to bid on your coins. And, let's remember that the same bidders and buyers who set world-record prices in the past, will be competing for your collection as well!

***Confidential finders fees and cash advances are always available.***

**Our next prestigious auction is waiting for your collection.** You can take advantage of the same quality of cataloguing and the same track record, all for a low commission rate you will find to be very competitive. It makes sense to have the most prestigious rare coin auctioneer handle your collection. Mark Borckardt will personally supervise and participate in the showcasing of your collection or individual rarities, while the entire Bowers and Merena Galleries staff will lend expertise and enthusiasm. Additionally, we can offer you an immediate cash advance against your consignment while we showcase your coins to their finest advantage.

**Our auction schedule for 2004 and beyond is bursting with opportunities for you to consign your rare coins and currency.** To reserve a place for your material call Sue Mitchell today at 800-458-4646. It may well be the most financially rewarding decision you have ever made.

## RARE GOLD

If you are a marketer of rare United States Gold coins and you do not receive my wholesale price list, you may be costing yourself money.

I'm one of the largest wholesalers of rare United States Gold coins in the world. I have over twenty years experience in wholesale gold coin sales.

Each week, I put out a "user-friendly" inventory list which contains over \$1 million of choice, fairly priced rare U.S. Gold coins.

I specialize in PCGS and NGC graded U.S. Gold coins struck from 1795 to 1900 in Very Fine to Mint State grades.

Comprehensive support material is available. I can increase your sales and make it easier for you to sell rare U.S. Gold coins.

### BUYING ALL BETTER DATE GOLD ESPECIALLY WANT THE FOLLOWING TWENTY DOLLAR GOLD PIECES

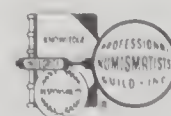

1850-1876 TWENTY DOLLAR AU 53 - MS 65

CARSON CITY 20 DOLLAR AU 53 - MS 63

ALL SLIGHTLY BETTER DATE 20 DOLLAR MS 62 OR BETTER

*If you would like to be put on my mailing list  
or receive my regular fax list, PLEASE CALL.*

Let Us Set Records With Your Collection!

# Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

## 8 GREAT REASONS TO JOIN TODAY!

### 1 12 ISSUES OF NUMISMATIST.

Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

### 2 BORROW THE BOOK BEFORE YOU BUY THE COIN.

The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

### 3 LEARN WHAT THE EXPERTS KNOW!

The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

### 4 SAVE MONEY.

The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

### 5 INSURANCE.

Insure your collection for as little as 50 cents per \$100 of value. Your homeowners' policy can't match the rates or the coverage.

### 6 GRADING AND CONSERVATION SERVICES.

Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

### 7 ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.

Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

### 8 MEDIATION SERVICES.

Mediation for numismatic disputes is available through the ANA.

### CAPPED BUST HALF DIMES THE UNDERAPPRECIATED LITTLE SISTERS

by Bradley S. Karoleff

Capped Bust Half Dimes were Minted from 1829-1837, inclusively. Their relatively short life span witnessed the closing of our first Mint in Philadelphia and the opening of the new building in January 1833. The cornerstone of the second Mint was laid during the inaugural year of the Half Dimes, 1829. The new Mint was beginning the transformation from a primitive operation to a new mechanized facility worthy of our country's increasing wealth and influence. It would be just three short years from the opening of the new Mint to the introduction of modern steam Minting machinery. The Capped Bust Half Dime design was the last vestige of the early Mint's most successful design. This, the last of the individually prepared die designs, was soon to be replaced by the Liberty Seated style and the hubbing process of die manufacturing.

The early years of the Capped Bust design of the Half Dimes was limited to manufacture from individual bullion deposits from citizens and businesses. The U.S. Mint was not able to purchase bullion for their own account until 1836. The cost of Minting these small pieces of change made them unpopular products of the first Mint. Economically, it was preferable to produce the Half Dollars, as the cost of striking these coins was considerably less than producing the same dollar amount in Half Dimes. The high production costs sustained by the first Mint was a never-ending problem for the officers who sought to cut expenses wherever possible. Congress exerted continuous pressure to eliminate the deficit created by the Mint.

Spanish Colonial Silver coins continued to be the most plentiful type of bullion coin found in circulation. Their official status as legal tender would not be revoked until 1857 when they were retired after the creation of the new Flying Eagle Cents. The Half Real coins were accepted as 5 cents and were in plentiful supply. This negated the need to Mint large quantities of Half Dimes by our Mint. Commerce continued for decades without a pressing need for small denomination Silver coins from the Philadelphia Mint.

The Capped Bust Half Dimes were produced with dies prepared by William Kneass based on the design developed by John Reich in 1807. The Half Dime design matched that being used on the Dimes, Quarters and Half Dollars. They were struck in closed collars which imparted the Reeded Edges on the coins at the time of striking, thus eliminating the need to impart the reeding onto the edges in a separate process. The closed collar also produced coins of a more uniform size, allowing them to be **stacked**; therefore they wore more evenly than their predecessors due to the uniformly raised rim. This was the Mint's most important technological advancement of the pre steam press era.

The Capped Bust Half Dime series is quite unique in United States numismatics, as there are **no rare** dates included in this design Type. A collector can complete a set of these coins in Uncirculated condition without having to invest a small fortune in any one date. The series was minted for nine years represented by seventeen *Redbook* varieties, none of which are rare. Many collectors begin by attempting to complete a collection based on these different Types as listed in the *Redbook*. Advanced collectors will eventually attempt to collect all the known die marriage combinations listed in "*Federal Half Dimes 1792-1837*", by Russell J. Logan and John W. McCloskey

(91 coins). This is a truly Herculean undertaking, which will consume the time and financial resources of the most dedicated Half Dime collector.

Lets focus then on the *Redbook* variety collection of the Capped Bust Half Dimes in Uncirculated condition. Accumulation of these seventeen varieties will take perseverance and dedication over a significant time period if one is committed to assembling a quality collection. The population figures provided are from PCGS, NGC, and ANACS.

I am giving "**reported mintage**", as many of the Half Dimes of this time period were not produced in the year represented on the obverse of the coin. It has been proven that the Mint routinely utilized dies to produce coins for several years after the date depicted on the obverse during this period.

**1829** Reported mintage: 1,230,000

Total certified: BU 595, MS60-63 369, MS64+ 226

This is the inaugural year for the series. The *Redbook* does not list any varieties for the year, although there are two distinct reverse Types. There are two and three pale gule varieties (gules are the vertical stripes in the shield; pales are the individual lines within the gules). You can obtain either without difficulty by merely looking at the reverse of numerous 1829 Half Dimes. Some of the two pale gule Types are very rare by die marriage. Interested collectors can refer to "*Federal Half Dimes*" for the specific differences in the marriages. As this is the first year of issue for the series, there is additional demand for this date from Type collectors who desire the first year for their sets. A small premium over most of the other dates in the series is occasionally needed to obtain coins of this year.

**1830** Reported mintage: 1,240,000

Total certified: BU 555, MS60-63 336, MS64+ 219

The second year of the issue brought about a small change in the appearance of the date. A new style 8 punch was used to produce the coins after 1829. This year is also not rare and available in similar quantities as the 1829. As with all the coins you will be viewing, look for pieces with good luster and original surfaces. Coins will be available with both toned and brilliant surfaces. Your choice will be determined by your own taste and not limited by availability of the coins in either condition. An interesting variety to look for in 1830 would be the one with the "C" in "AMERICA" repunched over a Horizontal C (LM-14). If identified by the dealer, this may command a slight premium. A diligent search by the astute collector may uncover one for a generic Type coin price.

**1831** Reported mintage: 1,242,000

Total certified: BU 761, MS60-63 404, MS64+ 357

This is one of the **most common** and readily available years for the series in Uncirculated condition. There are no rare die marriages in this year (only 1831 and 1834 contain no rare or scarce die marriages). This reduces the demand for this year among cherrypickers, when compared with other years. There should be no difficulty locating an example of this date for your BU collection. Consequently, this may be the date you choose to purchase in the highest grade. Be patient and get a great coin!

**1832** Reported mintage: 965,000

Total certified: BU 826, MS60-63 453, MS64+ 373

1832 was the last year the first Mint was occupied for the entire year. The machinery was obsolete and becoming more worn-out with each days' production. Mint personal were anticipating the day they would occupy their new facility. The quality of the coins produced this year reflects the apathy of the employees and the deteriorating condition of the machinery in use. I find 1832 to be a difficult year to find particularly nice early die state coins for purchase. If you enjoy the late die state coins exhibiting cracks, cuds, clashmarks and general die

CIRCULATION & ADVERTISING Betty Morris

THE CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet) both as a Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight seen. The coins may be certified or "Raw" (uncertified) but the grading **MUST ADHERE** to the current standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market such Bids may include coins that are not available for certification for a particular service. Bids for a "Raw" coin may be higher or lower than a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Greysheet) provides Bids for certified coins only.

deterioration, you will enjoy this date. There are a few sleeper die marriages found in this year. You will have competition for nice coins from the die variety collectors that specialize in assembling die state sets of different marriages. The "C over Horizontal C" blunder of 1830 is repeated here using the same reverse die; it is a very common variety and should not command a premium. Another interesting repunching on a reverse die is the Small O over Large O in "OF". An example of this repunching should be available at no premium with a little searching. One of the marriages using this reverse is very rare. Consultation of the Half Dime book is highly recommended to determine if you have cherrypicked a rare marriage.

**1833** Reported mintage: 1,370,000

Total certified: BU 590, MS60-63 311, MS64 + 279

The chaos of 1832 continued into this year with the move to the new Mint. The highly anticipated new machinery was not ready and production had to be continued with the old outdated presses. There are many scarce and rare die marriages available for this date, which makes it popular with variety collectors and cherrypickers. You should still have no problem obtaining a choice coin for your set. Some of the varieties for this date also come with badly deteriorated reverse dies. Many variety collectors seek multiple die states for these varieties, taking more of them off the market for date collectors.

**1834** Reported mintage: 1,480,000

Total certified: BU 598, MS60-63 315, MS64 + 283

This is the first date that the *Redbook* lists more than one variety for the collector to consider. There is a "3 over an Inverted 3" date punching blunder available. This is not a rare variety but will likely cost you a premium. Dealers who have identified this variety will ask for a premium of almost double the asking price of the more common normal date. You may, with diligent searching, be able to cherrypick one for your own collection at no premium. Here again, knowledge is king when purchasing coins. The normal 1834 date can be found with no problem. Invest in a few good books about the series you are collecting; it will ultimately repay you in multiples of the references' cost.

**1835** Reported mintage: 2,760,000

Total certified: BU 883, MS60-63 474, MS64 + 409

1835 can be a difficult year for the collector to complete. There are 4 different varieties needed to complete your year set. There were two different size numeral punches used to produce the working dies for 1835. This resulted in both Large and Small Dates as well as Large and Small 5C on the reverse. The combinations needed are: Large Date and Large 5C, Large Date and Small 5C, Small Date and Large 5C, and Small Date and Small 5C. Based on the population numbers, you would think that there would be no problem obtaining all four of the varieties in Uncirculated condition. PCGS was the only grading service to differentiate between the four Types in their population report. I was very surprised by the following numbers: Large Date and Large 5C- 317 pieces in all Uncirculated grades; Large Date Small 5C- 9 pieces, Small Date Large 5C 13 pieces, and Small Date Small 5C- 21 pieces. Assuming these ratios are approximately the same for the other services, and there is not a bookkeeping reason for the differences, finding the three varieties other than the Large Date and Large 5C will be difficult. I would rate the three other combinations a "best buy" based on this information, although experience does not necessarily reflect this difficulty. The Logan/McCloskey guide does document a hoard of 100 Uncirculated pieces found in 1969 that were mostly the Small Date, Small 5C combination.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

**INVESTORS NOTE:** The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

**Subscription Information:** A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

**the COIN DEALER Newsletter**  
P.O. Box 7939 • Torrance, California 90504  
www.greysheet.com • cdn@greysheet.com

**1836** Reported mintage: 1,900,000

Total certified: BU 355, MS60-63 180, MS64 + 175

There are three different 1836 varieties to collect. You will need both the Small and Large 5C varieties, as well as a "3 over Inverted 3" repunched date. The Small 5C will likely be the easiest of the three to obtain. You can fill both the repunched date and the Large 5C varieties with the same coin. Expect to pay a premium for the repunched date coin; however do not pay a large premium, as this variety is only rated as an R1 in the Logan/McCloskey manual. If you find a Large 5C coin without the repunched date it may be a scarcer variety that will sell for a premium to the collectors attempting a complete die marriage collection. 1836, in general, seems to be a slightly underrated date based on the population reports.

**1837** Reported mintage: 871,000

Total certified: BU 193, MS60-63 108, MS64 + 85

You will need to obtain two different coins to complete your set for this year. There are both a Large and Small 5C reverses available. The Small 5C variety is represented by only one die marriage that is listed as an R3. It is in high demand and sells for a healthy premium. Cherrypickers are more interested in the Large 5C varieties for this year as two of the four marriages are very rare. This is the **key year** in the series. As you can see, the population for this date lags well behind all others for the series. Do not pass on any fairly priced and graded 1837 for your collection. You may not have opportunity to purchase another for an extended period of time. In my opinion, the prices listed for this year represent a good value for the collector.

**CDN QUARTERLY I** Bids for the entire series are virtually the same. In MS60 all the dates Bid for \$210 except the 1837 Small 5C, which Bids for \$650. In MS63 most Bid for \$500 with the 1837 Small 5C at \$1,500 and the Large 5C Bidding for \$610. In MS 64 the Bid prices are more varied. The "base price" for the series is \$930 represented by 1831, 1832, 1834, 1835, 1836. Dates that Bid for \$950 are 1829 and 1833. The 1830 Bids at \$1,000, and the 1837's are \$1,125 and \$3,300, respectively for the Large 5C and Small 5C varieties. The MS65 Bids also show very little variance. The common dates list at \$2,060, with the 1829, 1830, 1833, 1834 and 1836 at \$2,100. The 1837s still lead the price listings at \$2,800 and \$7,250. Expect to pay in advance of these prices for properly graded coins with exceptional eye appeal.

The Capped Bust Half Dimes represent the only 19th century set of American coins that the average collector can complete, as there are no extremely rare years included. It is still a formidable challenge that will take years of dedication to assemble with quality, original coins. The apparent ease reflected by the modest Bid prices will lull many collectors into a false sense of security. The reality of the situation is that there are simply not that many pieces available in the marketplace to purchase. There is a great demand for this series from the collectors of the die marriage set based on the Logan/McCloskey manual. These collectors have been diligently studying this series for years, taking the best coins off the market for extended periods of time. Do not let this discourage you - join the ranks of those of us who enjoy the challenge! Start a set and increase your knowledge of the series. Allow yourself to be transported back to the days of our early Mint and the wonderful world of variety collecting. Your hobby interests will never be the same.

Bowers & Merena, the premier coin auction company, has joined Teletrade® and Kingswood® to form Spectrum Numismatic Auctions, a dynamic new group of auction houses which provide a broad choice for discerning coin collectors who wish to realize the best possible prices, as well as enjoy the highest service, expertise and dependability.

**B**owers and Merena Auctions has been in the forefront of the public auction arena for decades. Whether your collection is worth \$5,000, \$50,000 or more than \$500,000, the same expertise that showcased the world's most valuable collections will showcase your coins to their fullest advantage.

Auction veteran Stephen Deeds has been appointed President of Bowers and Merena Auctions and will lead the California and Louisiana offices. Mr. Deeds, whose numismatic career spans four decades, previously directed numismatic auctions for Superior Galleries in Beverly Hills, California.

Mark Borckardt joined the firm in June 1989 as Senior Numismatist. He is well known for his technical expertise and general knowledge of all aspects of United States coinage. Mark has been a contributor to the cataloguing of all important Bowers and Merena auctions since joining the firm.

And now our affiliation with Spectrum Numismatic Auctions provides us with the most important and largest list of collectors who will be made aware of the sale of your coins through our public auctions and on the internet.

Bowers and Merena has sold four out of the five largest coin collections ever sold at public auction, including the top two. Bowers and Merena was the first coin firm to sell a coin for over \$1,000,000! Of the 17 highest prices realized by a rare coin at public auction, Bowers and Merena is responsible for nine of them. Bowers and Merena has handled every date and mint mark issue produced by the United States Mint and all its branches.

Bowers and Merena was the official auctioneer for the 2003 American Numismatic Association Convention in Baltimore and their auction realized over \$11,000,000. The Bowers and Merena auction, in conjunction with the Baltimore Coin & Currency Convention on December 5 & 6, realized over \$4,000,000.

So call us today at 800.458.4646 and take advantage of this new force in the coin auction arena. It may well be the most financially rewarding decision you could make.

## 2004 Auction Schedule

Sale Date	Consignment Deadline	Sale
May 4	March 26	Rarities Sale Milwaukee, WI
<i>May Lot Viewing</i> Sunday, May 2: 9-6 • Monday, May 3: 9-6 • Tuesday, May 4: 9-4		
July 8-11	May 17	Baltimore Coin & Currency Convention Baltimore, MD
August 15-16	July 2	Rarities Sale Pittsburgh, PA
October	TBA	Rarities Sale
December 2-4	October 18	Baltimore Coin & Currency Convention Baltimore, MD

# BOWERS AND MERENA AUCTIONS

Bowers And Merena Auctions is a subsidiary of Greg Manning Auctions, Inc.

All Modern Eagles and Sets must contain complete original U.S. Mint packaging

## GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60-Unc.: May not have full mint luster, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.	MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.
--	--

**MS64—Distinct BU:** Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.	Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.
---	---

## Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

### 8 GREAT REASONS TO JOIN TODAY!

#### 12 ISSUES OF NUMISMATIST.

Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

#### BORROW THE BOOK BEFORE YOU BUY THE COIN.

The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

#### LEARN WHAT THE EXPERTS KNOW!

The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

#### SAVE MONEY.

The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

#### INSURANCE.

Insure your collection for as little as 50 cents per \$100 of value. Your homeowners' policy can't match the rates or the coverage.

#### GRADING AND CONSERVATION SERVICES.

Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

#### ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.

Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

#### MEDIATION SERVICES.

Mediation for numismatic disputes is available through the ANA.

### Mint State Liberty Seated Dollars From 1840 to 1873

by Duncan D. Lee

Liberty Seated Dollars, Minted from 1840 to 1873, are challenging to collect and fascinating to study. It has not been studied as thoroughly as other series of Liberty Seated coins and much misinformation abounds. My own observations have been gleaned from an extensive study and search for varieties while putting together several "complete" sets of Seated Dollars for my clients over the past twenty some years.

Despite the obvious difficulties in deciphering the population reports due to multiple resubmissions, the PCGS and NGC population reports provide a solid bases for the study of relative rarities. Although nothing can replace the many years of specialized experience of a knowledgeable dealer or a serious collector, the population reports are certainly one of the key tools in considering the relative rarity of many coins. For that purpose, I am utilizing the PCGS and NGC population reports that were available to me as of November 1, 2003.

Each of the 45 collectible dates in the Liberty Seated Dollar series is given a rarity ranking in Mint State based upon the number of Mint State specimens graded by PCGS and NGC. Ties were broken based upon the total number of specimens graded. The comments listed in the date by date analysis are meant to refer only to business strike specimens. The population figures by date do not include proof coins except for the 1858 Dollar. As a Proof-only issue, an example of this date is usually included in a set of Seated Dollars.

#### Date By Date Analysis

**1840:** Let me start by saying that all Mint State Liberty Seated Dollars are rare and in most instances very rare in grades of MS-63 and higher. This date is no exception; but there is an added collector demand as the first year of issue. Specimens come well struck and semi-prooflike when available. Rarity Rank: 21.

**1841:** Another very underrated date in Mint State. It usually comes well struck. This date also comes with a variety that shows repunching on the date at the "18". Note: Of the early Proofs, the 1841 is the rarest with only three known and all are "Restrikes." Some of the so-called "Proofs" have turned out to be cleaned prooflike specimens. Rarity Rank: 23.

**1842:** Once considered to be common in Mint State. However, original choice specimens are very difficult to locate and gems are virtually nonexistent. There is an obviously repunched date variety where the "842" is clearly repunched. This issue usually comes with an excellent strike. Rarity Rank: 39.

**1843:** This issue usually comes softly struck on the obverse Stars but with lustrous surfaces. All regular issues are observed with a repunched "43" in the date. Very underrated. Rarity Rank: 30.

**1844:** Very rare in Mint State and underrated. This date comes fully prooflike and many specimens have been sold as "Proofs" in the past. All specimens have the quadruple obverse stripes in the shield, actually a Doubled Die obverse. The rare Proofs come with the regular obverse. Rarity Rank: 18.

**1845:** This date is now recognized as being very rare in Mint State. However, many nice AU coins still pass for Mint State. This date generally comes well struck and semi-prooflike. All Proofs have obviously repunched dates. Rarity Rank: 7.

**1846:** This date is comparable to the 1842 in availability overall. However, it is rarer in Mint State. Some softness in strike observed in the obverse Stars. Rarity Rank: 34.

**1846-O:** Another major rarity in Mint State. Usually comes well struck. Rarity Rank: 13.

**1847:** This is an underrated issue in Mint State. Not as common as once thought in Uncirculated. It usually comes well struck. Rarity Rank: 32.

**1848:** Traditionally considered a very rare date and justifiably so. Some softness in strike usually seen on the obverse Stars. Rarity Rank: 11.

**1849:** Underrated and difficult to locate with nice eye appeal. It usually comes with a soft strike on the obverse Stars and on the eagle's leg on the reverse. Rarity Rank: 35.

**1850:** A very low mintage date and popular as such. However, this date is still very rare in Mint State. Many come sharply stuck and fully prooflike. Rarity raking in Mint State: 24.

**1850-O:** A super **rarity** in Mint State. Apparently this issue was not saved. Some weakness in strike is usually seen on the obverse. Rarity Rank: 8.

**1851:** A recognized rarity in all grades. This is the **rarest** date to locate in grades at or below AU. The population report is not very helpful due to many resubmissions. A few specimens are well struck but most have some weakness in strike. All Proofs of this date are Restrikes although the population reports indicate incorrectly a few "Originals." All Originals have the high date. Rarity Rank: 12.

**1852:** Next to the fabled 1870-S, this date is the rarest overall followed closely by the 1851. In Mint State, the 1852 is a recognized rarity. Many are observed with weak obverse Stars on the left. Rarity ranking in Mint State: 4.

**1853:** Previously considered "common" but now being recognized as a tough date to locate in Mint State. Comes with an average strike. It should be noted that the weight of the Silver Dollars was not reduced in 1853 making them worth slightly more than face value. As a result, many Seated Dollars were melted and the reported mintages are practically useless in determining rarity. Rarity Rank: 33.

**1854:** Extremely rare overall as a date. There are at least two fabulous gems of this date. Average strike with some minor weakness in Miss Liberty's head and in the date. The Proofs have the repunched date. Rarity Rank: 21.

**1855:** Another extremely rare date. Although slightly more available than the 1854 date in circulated grades, it is much rarer in Mint State. This date usually comes with some strike weakness. Rarity Rank: 14.

**1856:** **Extremely** underrated in Mint State. Although there are a few notable exceptions, most come very weakly struck with a flat head and eagle's leg. All Mint State specimens have a die scratch between the loop and the tail of the 6 which may have been confused as an "overdate." The reported 1856/4 overdate has not been seen. Rarity Rank: 10.

**1857:** This date is notorious for being weakly struck. I have seen only two specimens with a decent strike in the past twenty years. However, it usually comes with wonderful prooflike surface. Rarity Rank: 29.

**1858:** A Proof-only issue included here since it is usually collected as part of the Seated Dollar series. Once considered a rarity, it is relatively overrated. However, this date is becoming harder to find nice. Rarity Rank: 40.

**1859:** This is a very underrated date and very rare in Mint State. Rarity Rank: 22.

**1859-O:** Although one of two **most** common dates in the series, this date is especially difficult to find without baggy surfaces. Extremely underrated in MS-63 and higher. Usually can be found with a good strike. Rarity Rank: 44.

**1859-S:** Another recognized major rarity. This is the only San Francisco Mint No Motto Seated Dollar. Extremely rare in Mint State. The variety with the repunched "18" is actually much more available than the perfect date despite many assertions to the contrary. Rarity Rank: 16.

**1860:** Relatively available but still very difficult to locate in Mint State. Usually comes with a good strike. Rarity Rank: 36.

**1860-O:** The **most "common"** Seated Dollar. Despite the persistent rumors that several Mint State bags of these coins were released by the Treasury, it is unlikely that more than 1,000 Mint State specimens exist today. The vast majority of these pieces are in scuffy, baggy condition. Several years ago, a small hoard was discovered inside a chimney of a New Orleans' house and included most of the Gems now graded as MS-65 or MS-66! Regardless, in MS-63 or better, this date is still difficult to find nice. This date comes with varying strike qualities. Numerous varieties exist. Rarity Rank: 45.

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight seen. The coins may be certified or "Raw" (uncertified) but the grading **MUST ADHERE** to the current leading standard. Bids reported also consider activity in the certified **SIGHT UNSEEN** market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly **CERTIFIED COIN DEALER Newsletter** (Bluesheet) provides Bids for certified coins only.

**1861:** The first of the Civil War issues. Seated Dollars issued from 1861 to 1865 are all rare and they usually come with some die striations in the fields. Usually comes very well struck. Rarity Rank: 31.

**1862:** Another rare issue. Usually seen with a good strike but with heavy die striations in the field. Rarity Rank: 38.

**1863:** A very rare date in Mint State. Usually well struck with die striations in the field. Rarity Rank: 28.

**1864:** This date is the rarest of the Civil War issues in Mint State and all observed specimens have the "18" slightly repunched in the date. Tough to find without excessive die striations. Rarity Rank: 17.

**1865:** Very rare and difficult to locate. This date comes with a soft strike and with die striations in the field. Rarity ranking in Mint State: 19.

**1866:** The first of the with Motto Dollars and another tough date to find. Most specimens have been observed with a repunched 66 in the date. This date is also difficult to find well struck. Rarity Rank: 27.

**1867:** Underrated and difficult to locate. All Mint State specimens have the normal date over small date repunching. This date comes with a great strike and prooflike surfaces. In fact, many Mint State prooflike specimens were originally mistaken for proofs. No proofs with the repunched date have been verified. Rarity Rank: 25.

**1868:** A recognized rarity in Mint State. This date comes prooflike and well struck. Very rare in MS-63 or better. Rarity Rank: 15.

**1869:** Underrated and rare in Mint State. Occasionally seen prooflike with an average strike. Rarity Rank: 26.

**1870:** This is a slightly better date in the series. There is also a rare variety with the "870" in the date repunched. Usually comes with some weakness in strike. Rarity Rank: 37.

**1870-CC:** The first of the Carson City issues. This issue is very rare in Mint State. A few specimens are fully prooflike but most come with an average strike with some weakness in "Liberty." Rarity Rank: 9.

**1870-S:** A **legendary** rarity. Only 11 specimens are known to exist in all grades, the finest of these being the Uncirculated Stack's specimen. Rarity Rank: 1.

**1871:** The most common with Motto Dollar. There are at least three obverse varieties with the "71" in the date together, the "71" apart and the entire date obviously repunched. It should also be noted that with Motto Dollars come with Doubled Die reverses. Usually observed with some weakness in the Obverse Stars. Rarity Rank: 43.

**1871-CC:** One of the rarest issues in Mint State. This is a recognized rarity and possible no more than half a dozen exist in Mint State. Relative to the 1873-CC Dollar, this issue is undervalued. Rarity Rank: 3.

**1872:** Another common date although somewhat rarer than the 1871 in Mint State. There is a Blundered Date variety with a "2" punched twice into the rock. This date also comes with a Doubled Die reverse. Usually seen well struck. Rarity Rank: 42.

**1872-CC:** Extremely rare in Mint State. Very underrated in all grades. Usually seen prooflike with a good strike. Rarity Rank: 6.

**1872-S:** This date is a recognized rarity in Mint State. A hoarded date due to its low mintage, it is usually seen in grades AU and below and harshly cleaned. Comes well struck and somewhat prooflike. Rarity Rank: 5.

**1873:** An underrated "common" with Motto Dollar. This date sometimes comes weakly struck on the obverse Stars. This date also comes with a Doubled Die reverse. Rarity Rank: 41.

**1873-CC:** In Mint State, this date, along with the 1871-CC, is the rarest collectible Seated Dollar. Rarity Rank: 2.

**1873-S:** Noncollectible! Unknown in any collection! Although 700 were allegedly Minted, none are known to exist today. The usual account states that all were melted in 1873. Regardless, there exists documentation that supports the possibility that at least one standard Dollar dated 1873-S was struck and sent to Philadelphia for assay. Hopefully, it will resurface to the collecting community soon. Good luck!

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

**INVESTORS NOTE:** The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

**Subscription Information:** A subscription to the weekly *Coin Dealer Newsletter* (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

# BOWERS AND MERENA PRESENTS Jim Gray's North Carolina Collection

BOWERS AND MERENA is proud to offer the North Carolina Collection, a remarkable and virtually complete set of seated coinage. This is one of the most comprehensive collections to be offered since Eliasberg. The task of assembling this set spanned four decades. This collection will be offered at our July 7-10th, 2004 sale, in conjunction with the Baltimore Coin & Currency Convention.

# How does YOUR recommended coin dealer measure up?

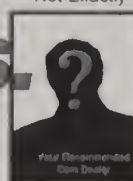

When selecting a coin dealer, it is important to know who you are choosing. Don't take a recommendation heard on the street, or in only one newsletter. Doing so could mean the difference between whether you choose a dealer with long-standing industry experience and recognition, or an upstart who could be gone tomorrow, or somewhere else altogether when you need to sell!

With over 25 years of professional experience and award-winning service to the rare coin industry, Mike Fuljenz is considered one of the most skilled dealers in numismatics by many. Bring this to any conference and compare Mike Fuljenz to any dealer or coin salesman. Compare any rare coin dealer's track record with Mike Fuljenz, and see how they measure up.

Mike Fuljenz

"Not Exactly"

**Vault Verification:**  
**UCDND504**

Has your dealer written an award-winning newsletter?	Mike received six awards from the industry standard, Numismatic Literary Guild (NLG) for his newsletter.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Has your dealer written award-winning books?	Since 2000, Mike has received three (3) NLG Book of the Year Awards.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Has your dealer received awards for his TV & Radio reporting?	Mike received 11 NLG Awards for Radio & TV reporting, including national reporting on CNBC-TV with Ted David and WOR Radio with Ken & Daria Dolan.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Has your dealer received awards from numismatic industry associations?	In 1996, Mike received the prestigious Presidential Service Award from the American Numismatic Association (ANA) for outstanding service to the rare coin industry.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Has your dealer taught rare coin seminars for industry associations?	From 1982-1998, Mike taught ANA summer seminars on rare coin grading and counterfeit detection to diverse classes of student groups, including collectors, dealers, investors, <u>and even the Secret Service.</u>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Has your dealer authenticated and graded coins for a grading service?	From 1982-1983, Mike was an authenticator/grader of rare coins for the ANA, and after testing was offered a similar PCGS position.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Has your dealer served as Officer of a Numismatic Association?	<ul style="list-style-type: none"> <li>• 1995-2003: Board Member for Industry Council for Tangible Assets (ICTA).</li> <li>• 1987-1989: Chairman of ANA's Certification Service Committee</li> <li>• 1983: Vice-President U.S. Commemorative Society</li> <li>• 1970-1973: President, Southwest Louisiana Coin Club</li> </ul>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Has your dealer been consulted by government agencies?	Mike was a consultant to the U.S. Postal Service, Federal Trade Commission, U.S. Mint, General Services Administration and the FBI.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Has your dealer served the rare coin business for more than 25 years?	Mike has more than 25 years of professional numismatic experience.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Has your dealer headed the same business for more than 10 years?	Since 1994, Mike has served as President of Universal Coin & Bullion, one of the nation's largest rare coin companies.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Has your dealer headed a coin company with over \$50 million in annual rare coin sales?	Mike is President of Universal Coin & Bullion, an organization which transacts more than \$50 million a year in sales.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Has your dealer been a featured speaker at money conventions?	For over 20 years, Mike has been a featured speaker at many large national rare coin conventions, including the ANA, Florida United Numismatists (FUN), Long Beach Expo and <u>Greater Houston Money Show.</u>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Has your dealer been a member of the major numismatic grading services?	Mike's firm is a long-standing member in both PCGS and NGC.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Has your dealer served in his local community?	Mike believes in community service, and has served as President of Beaumont Youth Basketball, Co-Head of the Umpires for the West End Little League, Coach for a Girls Select Soccer team, local school board member, and YMCA board member.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Has your dealer become a member of their local Better Business Bureau?	Mike has been an active member of his local Better Business Bureau for many years. Call Michael Clayton, CEO of local BBB to verify.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
In what coin areas has your dealer contributed to major reference books?	Mike has contributed to leading books on silver dollars, gold coins, proof coins, commemoratives, grading, Franklin halves, and general guide books including the Red Book and Blue Book	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Is your dealer often the high bidder on dealer exchanges for coins he recommends?	Mike and his representatives have routinely been the high bidder on Certified \$20 Liberties and \$2 1/2 Indians the past two (2) years.	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Universal Coin & Bullion wants to be your rare coin team.

## THREE-CENT PIECES (Nickel)

Complete set (no 77, 78, 86, or 87/6), Good-Very Good BID \$1,150 ASK \$1,275

1865	10.
------	-----

## BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices; "gem full steps" rolls (when available) bring higher prices. In the Mercury series "gem full" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls—particularly the S-mint issues—are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

# Another Satisfied Customer!

Dale Larsen and John Brush  
Spectrum Numismatics  
P.O. Box 18523  
Irvine, CA 92623

Dear Dale and John:

I'm unable to forget your handsome faces, what with Dale's note and card, plus the way you two keep appearing in Numismatic News and Coin World.

You can count me in as another satisfied customer. And the \$72,000 is already being spent on world silver, plus a few other indulgences. You're a good team and enjoyable to be around.

Keep smiling.

"A satisfied customer in Idaho"

Dale Larsen is a coin collector turned rare coin dealer. "I've walked a lot of miles in the collector's shoes and I know how he or she likes to be treated," Larsen says. His specialty is coins with "great eye appeal" and he "loves dealing with the public." Please contact Dale at [DaleSpec@aol.com](mailto:DaleSpec@aol.com)

Upon graduation from Birmingham-Southern College, where he was a part-time coin dealer, he joined Spectrum Numismatics. John works with sales, purchasing of coins and collections, coin grading, and authentication. "I enjoy coins from an historical and collector's point of view and would love to hear from you." Please contact John at [jbrushspectrum@aol.com](mailto:jbrushspectrum@aol.com)

Selling your coins to **Spectrum Numismatics** is as easy as one, two, three. In fact, it's even easier than that. Just give us a call, drop us a line or send us an e-mail. We'll take care of the rest.

A GMAI Company

Let Us Set Records With Your Collection!

# Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

## 8 GREAT REASONS TO JOIN TODAY!

### 12 ISSUES OF NUMISMATIST.

Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

### BORROW THE BOOK BEFORE YOU BUY THE COIN.

The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

### LEARN WHAT THE EXPERTS KNOW!

The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

### SAVE MONEY.

The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

### INSURANCE.

Insure your collection for as little as 50 cents per \$100 of value. Your homeowners' policy can't match the rates or the coverage.

### GRADING AND CONSERVATION SERVICES.

Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

### ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.

Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

### MEDIATION SERVICES.

Mediation for numismatic disputes is available through the ANA.

### Top 10 Reasons To Own "S" Mint \$20 Liberties (1877-1907)

by Mike Fuljenz

Ever since I first heard about the key 1909-S V.D.B Cent over 40 years ago, San Francisco Mint coins have appealed to me. In my early years as a coin dealer, the "easiest sell" Morgan Dollars were the early date San Francisco Mint coins with their great luster. Today, I am an older and "wider" coin dealer, and sell over \$5 million a month in \$20 Liberties. Like the early date "S" Mint Morgans, the easiest \$20 Liberty to sell is a frosty San Francisco Mint specimen. Below I give my "David Letterman" *Top Ten Reasons* why they have become so relatively easy for my company to sell. Hopefully, these Top Ten reasons, along with the accompanying charts and numismatic analysis, will help you and your staff make a few more Type III \$20 Liberty Double Eagle sales this year.

**1** Prices have been consistently moving higher the past two years (see Chart A)

**9** San Francisco Mint \$20 Liberties typically have great luster and strike compared to other Mints. (see date-by-date analysis at right)

**8** Size matters as new collectors and investors more often than not like a bigger coin with more precious metal value than smaller Gold coins. It is easier to sell a new client a \$20 Liberty for \$1,000 than a \$2 ½ Liberty for the same price.

**7** Hoards of Type III \$20 Liberties are minimal compared to \$20 St. Gaudens hoards and Type I \$20 Liberty treasure coins. Over the years I've handled over 100 original bags of better date \$20 St. Gaudens and less than 10 bags of \$20 Liberties. Many more Saints were used for balance of trade payments to Europe and are still finding their way back home.

**6** Railroads don't sink. This is my staff's "catchy" way of explaining to customers that most sunken treasure ships occurred prior to the completion of America's first transcontinental railroad in 1869. Hoards of better date Type III "S" Mint \$20 Liberties found on a sunken ship are virtually unknown, as they were probably shipped by rail during this time.

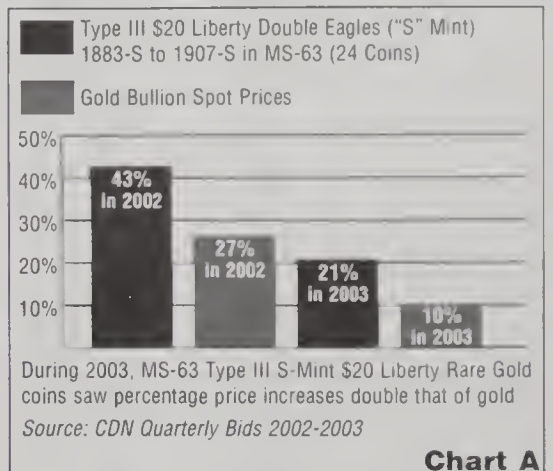

**5** They have great rarity factors compared to a price premium over the most common Type III \$20 Liberty, the 1904 Philadelphia issue. For example, we explain to customers that an 1898-S in MS-63 is 21 times rarer for only about a 50% premium in price (see Chart B).

**4** Ice hockey legend, Wayne Gretzky used to say his greatest gift was "knowing where the puck was going to be." When looking for a series that will remain popular, I remind customers to think about what new coin buyers are going to buy next, because that is where the puck is going to be! The upcoming Top 3 reasons below will help bring this point home.

**3** New books on a coin series drive collecting choices. If they win awards, it drives them even more. In 2000, the NLG Investment Book of the Year award was given to "Type Three Double Eagles 1877-1907 A Numismatic History An Analysis" by Michael Fuljenz and Douglas Winter. This helped to get the word out. The previous year many \$20 Libs increased in value as much as 70% as we began distributing over 30,000 books to numerous dealers and collectors. This month, 40,000 new, updated 2<sup>nd</sup> editions of this book are being released. The book is made to be user friendly between dealer and customer to make sales easy. To assure that customers keep coming back to you, not me, my name isn't on the book!

**2** The recovered hoard of Type I \$20 "S" Mint Liberties from the S.S. Central America created thousands of new collectors, whose next purchases have been other "S" Mint Liberties. Like the S.S. Brother Jonathon, the new S.S. Republic hoard includes Type I \$20 Liberties and will probably contribute to this phenomenon, whether or not many "S" Mints are among the treasure trove.

**1** The overall coin market is expanding with more new wealthy customers entering our arena than at anytime in my company's history. Our sales have increased 70% in the past twelve months. In other areas of collectibles like art, a Picasso just traded for a record 104 million dollars. This quote from the CBS *Morning Show* says it well, "There has never been a time with more wealthy collectors spending more money on expensive art."

### Type III \$20 Liberty Double Eagles 1877-1907 Numismatic Analysis of All "S" Mint Issues

**1877-S:** Generally found with a good strike although typical examples are not as well detailed as the 1877 Philadelphia Double Eagles. Frosty luster and somewhat grainy texture. Becomes scarce in MS-61 and MS-62, and very rare in MS-63 or higher.

**1878-S:** Very similar in overall rarity to the 1878 Double Eagle, despite a much higher mintage. Probably least well struck of the three 1878 Double Eagles. Most surfaces are highly abraded, luster is often not very good. Becomes rare in MS-61, very rare in MS-62, and extremely rare in MS-63 or higher.

**1879-S:** Popular year with Double Eagle collectors, as the only year that Type III Liberties were struck by four different Mints. 1879-S has the highest mintage figure of the four, but still scarcer than generally believed. Like most San Francisco Type III Double Eagles from this era, the 1879-S is found with slight weakness of strike. Luster is good and many higher grades have vivid, frosty luster. Becomes rare in MS-61, and very rare in MS-62 or better. Only two (2) MS-63 examples are known at this time and offers have been refused at over \$37,000 for them.

**1880-S:** Like other San Francisco Type III Double Eagles from 1877-1881, the 1880-S is scarcer than its large mintage suggests. Usually found with slight weakness of strike. Luster is generally good. Higher grade coins have frosty luster. Moderately scarce in MS-60 and MS-62, and very scarce in MS-62 or higher.

**1881-S:** Very similar in both overall and premium quality to the 1880-S. Generally well struck and excellent luster. Scarcer than generally believed. Becomes scarce in MS-61 and rare in MS-62 or higher.

**1882-S:** Generally not as well-struck an issue. Luster is most often frosty. Difficult to locate in lower Uncirculated grades (MS-60 to MS-61). Becomes very scarce in accurately graded MS-62 and extremely rare in any higher grade.

**1883-S:** Quality of strike is usually very good. Luster is excellent. Becomes scarce in MS-62, rare in MS-63 and extremely rare in any higher grades. This date is highly underrated.

**1884-S:** Original mintage figure is more than ten times greater than the 1884-CC, yet surprisingly, the 1884-S actually almost as rare in total number of pieces still existing. Strike is very bold. Excellent luster with frosty texture. Scarce in MS-63, and still very rare in MS-64 or higher.

**1885-S:** Comparable in rarity to 1884-S. Most 1885-S Double Eagles strikes that are a bit less sharp than other San Francisco issues of the era. Excellent luster with frosty texture. Becomes scarce in MS-63, and very rare in any higher grades.

**1887-S:** Lowest mintage Type III Double Eagle "S" Mint. Among the rarest in premium quality grades. Many examples are not fully struck on the obverse, but excellent luster with very frosty texture. Becomes rare in MS-62, and very rare in all higher grades.

**1888-S:** Most common "S" Mint Double Eagle struck in the 1880's. Strike quality is quite good. Excellent luster, often very frosty. Quite scarce in MS-63 and very rare in higher grades.

**1889-S:** One of the more difficult late 1880's San Francisco Double Eagles to locate in premium quality, Uncirculated grades. Frosty luster with good strike. Becomes very scarce in MS 63, and very rare in MS 64

## MONTHLY SUPPLEMENT

COPYRIGHT 2004 COIN DEALER NEWSLETTER, A DIVISION OF CDN INC.

Reprint of any issue without permission is expressly forbidden by law.

EXECUTIVE DIRECTOR Pauline Miladin  
EDITOR Keith M. ZanerPUBLISHER Shane Downing  
CIRCULATION & ADVERTISING Betty Morris

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet), both report the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight seen. The coins may be certified or "Raw" (uncertified) but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market, such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

**1890-S:** Scarcest of all "S" Mint Double Eagles during the 1890's. Strike quality is above average. Excellent luster, most often very frosty. Scarce in MS-62, and rare in MS-63 or better.

**1891-S:** Usually a very well made issue. Excellent luster with very frosty texture. Common in all grades up to and including MS-62. Very scarce in MS-64. Gem examples are very rare.

**1892-S:** Strike quality varies. Some very sharp strikes known with complete detail on Liberty's hair, and fully defined eagle feathers. Others, show weakness on portrait with the hair not fully separated. May be some weakness on radial lines of obverse stars. Luster typically very frosty, and a few are semi-prooflike. Common in all grades up to and including MS-62. Scarce in properly graded MS-63, and very rare in all higher grades.

**1893-S:** Very similar to 1892-S in overall rarity. One of the more difficult San Francisco dates struck after 1890 to locate in MS-64 and better. Generally well struck. Excellent luster with thick Mint frost often seen. A few semi-prooflike pieces are known. Reasonably scarce in MS-63. Very rare in MS-64 and better.

**1894-S:** Strike quality is generally above average. Excellent luster with very frosty finish. Scarce in MS-63 and rare in MS-64.

**1895-S:** Very similar to 1894-S in overall and premium quality rarity. Excellent luster with rich frosty texture. Common in all grades up to and including MS-62. Very scarce in MS-64.

**1896-S:** Strike quality is not as sharp as some other San Francisco issues from the 1890's. Excellent luster with thick Mint frost. Common in all grades up to and including MS-62. Very scarce in MS-64, and extremely rare in MS-65 or better.

**1897-S:** Second most common San Francisco Double Eagle struck prior to 1900. One of best produced Double Eagles from the San Francisco Mint. Strike typically excellent, with excellent luster and hard, thick frost. Very common in grades up to and including MS-63. Scarce in MS-64 and extremely rare in MS-65 or better.

**1898-S:** Easily the **most common** Double Eagle struck at the San Francisco Mint during the 19<sup>th</sup> century. Also, the second most common "S" Mint Liberty trailing only the 1904-S. Extremely well-produced issue. It is often fully struck. Excellent luster with many coins showing thick, frosty texture. It is only moderately scarce in MS-64, but gems are rare.

**1899-S:** The strike on this issue varies greatly. Some are very sharp with fully defined centers and clear borders. Others are weak on the lower obverse border and the centers of the wings. A few semi-prooflike or even fully prooflike pieces exist. It is common in all grades up to and including MS-62. It is scarcer than generally believed in MS-64 and is very rare in MS-65.

**1900-S:** The 1900 S has a mintage figure similar to the 1898 S and 1899 S. But, the 1900 S is more difficult to locate, especially in higher grades. This date shows a strike comparable to other San

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crcnshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

1907-S	274	132	\$4,200	\$4,300

\*PCGS/NGC population as of April 04

Chart B

Francisco Double Eagles of this era. The luster is most often frosty, and a few are known with semi-prooflike fields. It is common in all grades up to and including MS-62. It becomes relatively hard to locate in MS-63, and it is rare in MS-64 and better.

**1901-S:** The 1901-S Double Eagle is a more difficult issue to locate than its large mintage figure would suggest. The luster is typical of the era with a rich, frosty texture. It becomes scarce in MS-63 and rare in MS-64 and better.

**1902-S:** This date is slightly better struck than the 1900-S and 1901-S. The luster is excellent with a very thick, frosty texture. A few exist with semi-prooflike or even fully prooflike surfaces. It becomes scarce in MS-63 and is quite rare in MS-64.

**1903-S:** This is one of the best struck San Francisco Double Eagles from the 20<sup>th</sup> century. The luster is very frosty and a small number of pieces have semi-prooflike or even fully prooflike fields. It is slightly scarce in MS-63, and very scarce in MS-64. MS-65 examples are extremely rare.

**1904-S:** The mintage figure for this issue is the **highest** recorded for any Liberty Double Eagle from the San Francisco Mint, and is consequently the most common of all the "S" Mint Liberty Double Eagles. The strike is as sharp as on any Double Eagle from this Mint. The luster is excellent and tends to be very frosty. Some semi-prooflike pieces are known. It is very common in MS-60 to MS-64. It is rare in MS-65.

**1905-S:** The 1905-S Double Eagle is a much scarcer coin in high grades than its mintage figure would indicate. The quality of strike on this issue is a bit less sharp than other "S" Mint issues from this era. The luster is good with a rich frosty texture. It is fairly scarce in MS-63 and rare in MS-64 or better.

**1906-S:** The 1906-S Double Eagle is much more available than the 1905-S. It is a better struck issue than many of the Liberty Head San Francisco Double Eagles. The luster on this issue tends to be excellent with a thick, frosty texture. A small number of semi-prooflike coins are known. It is only slightly scarce in MS-63, but becomes very scarce in MS-64.

**1907-S:** This date is considerably scarcer than its large original mintage of over 2 million coins would suggest. The luster is frosty in texture. The 1907-S is almost never seen in grades below AU-58, since it did not circulate extensively. It is easily obtainable in MS-60 to MS-62, and just slightly scarce in MS-63. It becomes very scarce in MS-64 and rare in MS-65.

## BU ROLLS

Below are prices for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise interior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices; "gem" full steps" rolls (when available) bring higher prices. In the Mercury series, "gem" full steps" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

# Make the **SUPERIOR** Choice!

## We Buy Coins!

Our extensive client base, including over 3,000 local Beverly Hills millionaires, affords us the ability to pay the highest prices we can for your material. Our Preferred-Client Want List contains coins of all caliber and price, and we are always anxious to buy coins to help our clients complete their portfolios.

## We Sell Coins!

We maintain a multi-million dollar inventory of rare coins for your shopping pleasure. Our Want List Program is second-to-none and will help you fill the gaps in your collection. Inventory lists are available upon request by fax or e-mail, or you can visit our website and shop at your convenience.

## We Auction Coins!

Get on board with America's fastest growing numismatic auction firm. Our position as one of the world's leading coin auction firms is because we realize the highest prices for our consignors and bring the most desirable coins to our buyers.

## We Trade Coins!

If you have duplicates, or old stale inventory, you should consider trading up for the coins you really want. Our generous trade-in allowances will help bridge the gap to developing a world class collection.

## We Lend Money!

That's right, we even lend money against coins. Need help financing a deal, or just need quick cash? Bonded by the strength of Stanford Financial, we are in a position to lend any amount you need at attractive rates.

# Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

## 8 GREAT REASONS TO JOIN TODAY!

### 12 ISSUES OF NUMISMATIST.

Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

### BORROW THE BOOK BEFORE YOU BUY THE COIN.

The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

### LEARN WHAT THE EXPERTS KNOW!

The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

### SAVE MONEY.

The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

### INSURANCE.

Insure your collection for as little as 50 cents per \$100 of value. Your homeowners' policy can't match the rates or the coverage.

### GRADING AND CONSERVATION SERVICES.

Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

### ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.

Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

### MEDIATION SERVICES.

Mediation for numismatic disputes is available through the ANA.

### Hidden Values: Non-Full Head Standing Liberty Quarters

Part I

by J. H. Cline

When beginning a coin collection, the age old question arises: "What should I collect?" – U.S., Foreign, Ancient – or any combination of those categories. Most of us select one series and the majority of us select the coin of the realm (coinage from the country in which we reside). Let's say you have decided to collect U.S. coins. This is all well and good, but there are so many series of U.S. coins to choose. So which series and how complete a set will you pursue?

Louis E. Eliasberg, Sr., set out to collect one of everything that was listed in "A Guide Book of United States Coins" by R.S. Yeoman. Most of us are content to select within half a dozen series or so. Indian Head Cents, Lincoln Cents, Mercury Dimes, Standing Liberty Quarters, etc., etc.

So we collect for a while – a bit here and a bit there, but we are not as patient as we should be because it moves too slowly, and discretionary money only goes so far. At this point in time we look at all of those holes in our albums or at our list of needed items and say "Wow, I need to select one series, concentrate on it, complete it, and then go on to another series." Let's examine a middle of the road series, Standing Liberty Quarters. How have I arrived at this conclusion? Circulated, lower-end Mint State, middle to high-end Mint State? Another decision must be made. Let's say we have settled on middle to high-end Mint State. One final area must be addressed: Full Heads or Non-Full Heads with overall nice strikes? This is a really tough decision. The majority of Standing Liberty Quarter collectors who collect in the Mint State condition do prefer the Full Heads. Since there are about 25 Non-Full Heads for each Full Head, the Full Head pieces have enjoyed publicity and popularity. I have decided to search out the hidden values of the Non-Full Head Standing Liberty Quarters. Yes, I know I will be swimming against the current. I attend many major coin conventions and auctions each year, and nearly everyone asks me how many Full Head pieces I have with me. After some personal analysis, I have found that there are indeed several surprises in the series regarding the "undervaluing" of some of these dates and mintmarks.

**1916:** The 1916 is in a class by itself. Very, very rare due to a low mintage of only 52,000. The most sought-after in the series, it has experienced some very strong activity recently that has resulted in strong appreciation. Frequently, novice collectors begin with the 1916, as it takes all dates and mintmarks to make a complete set. It still looks like a good place to start, with room for appreciation. This is a very different design from the 1917 Type 1, and in my opinion should not be "lumped together" with the 1917 Type 1. When 1916's come up at auction, the Bidding is spirited and all grades are strongly supported. With a mintage this low, Full Head vs. Non-Full Head is not so important on this piece. Prices seem well-supported for both.

**1917 Type 1:** The best strike in the entire series. Many collectors start with the 1917 Type 1, as it is readily available. Most 1917 Type 1's have Full Head detail so the Non-Full Head pieces are actually scarcer. This is, of course, supply and demand and must be collector driven or driven up by advertising "hype". Due to the fact that the 1916 is so expensive, some collectors think of this as the first obtainable coin for their sets. The 1916 was struck so late in the year (December 18, 1916) that the 1916 and the 1917 Type 1 were released at about the same time, so most people thought the 1917 was the first year for the new design.

**1917-D Type 1:** It is very enlightening to compare the Full Head with the Non-Full Heads with regard to availability. As other collectors

become encouraged to collect the Non-Full Head pieces, demand should increase and the hidden value should surface. A very small percentage of pieces of this date and mintmark were struck that did not have the Full Head, but the Non-Full Heads remain much less expensive. The branch Mints' strikes are, as usual, much weaker than the Philadelphia Mint strikes. This being the first year for the Denver Mint to strike this coin, it is true to form in its weakness at Miss Liberty's hairline that separates the temple and forehead. When a piece is Non-Full Head, it is **usually due** to the weakness in this area.

**1917-S Type 1:** Much less demand for this one in Non-Full Head however collectors are beginning to surface, proving how scarce they really are – especially in Mint State grades. Many times this date and mintmark is closely paralleled with the 1917-D Type 1 regarding price. This should not be the case, as the "S" is two to three times scarcer than the "D" in availability. Finding a high-grade, Non-Full Head piece is a rare occurrence. The "S" Mint is most often a soft strike. Head can be weak, with all other devices well struck. Many come with satiny fields, giving it a matte prooflike appearance.

**1917 Type 2:** If demand does increase for Non-Full Heads, this looks like a good bet. The number of encapsulated pieces in Non-Full Head is lower than the Full Head pieces. This was the motivating factor for the writing of this article. The reported populations in the top two grades are very low, with the Non-Full Head figure less than half of the Full Head number. This is self-explanatory when looking at CCDN MS67 Bids \$4,100 vs. \$6,500 (Non-Full vs. Full). Looks like a very good potential for appreciation.

**1917-D Type 2:** This appears to be a scarce date and mintmark when you examine the top graded pieces for Full and Non-Full Heads. With the mintage so large, one would think there should be many more pieces available, even in the top three grades of MS65, MS66 and MS67. It seems that the Denver Mint had some unpublished problems. Perhaps the wartime production took its toll. It seems to this author that all of the top three grades, with and without a Full Head have great growth potential, particularly considering all of the strong buyers who come forward when they are offered at auction and the strong sales by dealers, too. Records are frequently being broken at auctions on this one.

**1917-S Type 2:** This is the classic example for hard-to-find pieces in Mint State. So many of these were so softly struck – even in Mint State. Try to find this date and mintmark at current levels in the top two grades. This date is so softly struck they look as though they are circulated to the untrained eye. As of this writing there are only 118 Non-Full Head pieces encapsulated in the top three grades, making this piece so far underrated that it should demand the attention of the astute collectors seeking the possibility of a huge increase in price.

**1918:** Quite elusive in MS66 and MS67, and much sought-after, this piece is missing in many sets. You would think there would be many more encapsulated pieces in the top two grades and that they would more than satisfy the demand of the collecting world. Struck in Philadelphia, with a mintage of 14,240,000 it is easy to come to the (false) conclusion that it is "common". This is just not so in the Mint State pieces. In MS66 and MS67, only 95 pieces are encapsulated – with and without Full Heads! What a great place to put some of your collecting dollars. I would judge this "P" Mint to have the **strongest** potential, with the obvious exceptions being the 1916 and 1921 (keys), for appreciation in the series.

**1918-D:** If we sit down and analyze this together, I think you will agree with me that there is hidden value here. Normal retail on the 1918-D in MS65FH is \$5,500 and the 1918-D in MS (Non-Full Head) is \$1,500. Quite a difference. So many of these have much flatness in Miss Liberty's right leg – left as you view the coin. The weakness is the thigh (from knee up to hip). Almost in a league by itself. The only exception is the 1918-S, of which many have this same weakness. Many of the 1918-D's look as though they were struck with dirty dies – poorly struck.

PUBLISHER Shane Downing  
 CIRCULATION & ADVERTISING Betty Morris

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight seen. The coins may be certified or "Raw" (uncertified) but the grading **MUST ADHERE** to the current grading standard. Bids reported also consider activity in the certified **SIGHT-UNSEEN** market such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly **CERTIFIED COIN DEALER Newsletter (Bluesheet)** provides Bids for certified coins only.

**1918-S:** This is another hidden value piece in my opinion. So many of these were flatly struck on Miss Liberty's leg (see 1918-D). The high number of bad strikes obviously reduces the availability of high-end Mint State pieces. Even the Eliasberg MS64FH piece had quite a planchet lamination on the reverse, giving it an appearance of having been "shot with a B.B.". It was not, of course. With a combined mintage of 11,072,000 (this number includes 1918/7-S pieces) you would expect many high-end pieces to be encapsulated. Again this is not the case. World War I was on the minds of the workers and it is possible that striking quality suffered. After all, it was only a Quarter. This is the first Standing Liberty Quarter I ever purchased. I paid 35¢ for a harshly cleaned coin. I could not live with it and the next week took it to "Red's Coin Shop" in Dayton, Ohio and asked for a better piece from that series. I was making \$72 a week, before taxes, and paid \$7.50 for a brand new 1917 Type 1 with a sharp, Full Head! My house payment was \$65 a month, so I had to pass on the second piece he offered to me at \$5. It was not struck as well and that is why it was 50% less.

**1918/7-S:** The overdate is another piece that is almost in a league of its own. Discovered in 1937, most had circulated by then. Since there are no records to substantiate the total mintage of this piece, the total mintage could be considerably less than 7,500 pieces. Perhaps as few as 2,000/2,500? I base this estimate on my 40+ years of full-time dealing, and the number I have handled in this period of time. Many collectors feel that the overdate should not be part of the set. The dies were in good working order at 1917 year's end, and they found a way to keep using these dies into early 1918, when the life of the die was at its end. They simply created a strike-over of the date, creating the 1918/7-S. Since the law governing coinage says among other things that it is not legal to strike coins other than the current year, at midnight on December 31, 1917, striking could not continue without a date change on the die (to 1918/7-S) so they could continue to strike into 1918.

**1919:** This seems to be a common date, and it is until you hit the top 2 grades, MS66 and MS67. (An MS68FH changed hands in 2003 for \$41,000 and an MS68 Non-Full Head brought only \$27,000.) Appears that this piece has a great deal of room for up-shot. There is a large difference in price between the Full Head and the Non-Full Head. This date and mintmark seems to me to be one of the better struck Standing Liberty Quarters for the series except the 1917-P Type 1 which is the strongest strike for the whole series. But, as most know, MS65, MS66, MS67 and MS68 are still worthwhile as an investment as are most Standing Liberty Quarters. The very top grades with original Mint patina or eye-appeal is most desirable.

**1919-D:** The Eliasberg NGC MS67 Non-Full Head piece sold **sight-seen** via private sale in 2003 in the mid-\$30,000 range, about 8½ times more than dealers will pay for a non-pedigree example **sight-unseen**. At present, 1919-D is in great demand from MS60 on up. 1919-D is one of the most difficult dates to keep in stock in XF, AU, and Mint State. At this writing, I have a mere 2 pieces in stock in Mint State. It is much sought-after, and has commanded prices above retail for the past few years. Seems that by the time an ad goes to press, the prices for 1919-D are higher at an auction or private sale. Lacks a bit in overall strike, but there are some great strikes, with and without Full Heads. This is certainly a key date of the series.

**1919-S:** This is one of the key dates. The top three grades have a very low population and even this low number may be inflated by as much as 20% from pieces that were broken out and resubmitted for one reason or another. Quite a few collectors are working on "Registry sets" and it seems to me that any 1919-S would be a very worthwhile

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc. 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

**INVESTORS NOTE:** The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

**Subscription Information:** A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

***the COIN DEALER Newsletter***

 www.greysheet.com • cdn@greysheet.com

purchase. Both the 1919-D and 1919-S have always been in strong demand, and with the increased interest in this whole series that demand has substantially increased in Mint State grades. At the Central States Numismatic Society Convention May 15, 2004, I watched an MS62FH bring in over \$5,000, including the 15% buyer's fee. With so few available in the top three grades, with and without Full Heads, I think you can expect this date and mintmark to continue to increase in value. Much potential future value here as well as much room for growth.

**1920:** Since this is a common date, with a mintage of 27,860,000, there should be hundreds more high-grade Full Head and Non-Full Head encapsulated pieces. There are 17 pieces total in MS67FH and Non-Full Head, with none graded higher. Both Full Head and Non-Full Head examples are elusive. I am fairly certain there are more than 17 collectors of the series looking for these very rare pieces, but many are not yet aware of their true scarcity. This date and mintmark has many die breaks; especially around the date and other portions of the obverse. Very few die breaks on the reverse of this one. Be sure to look these over carefully.

**1920-D:** With a mintage of 3,586,400, only a total of 150 pieces are encapsulated in MS65, MS66, and MS67 Full Head and Non-Full Head combined. Wow, and double Wow! Quite an **underrated** date and mintmark. I would certainly place this one in the "hidden value" column. Only **one** in MS68FH, too. The 1920-D is the second sleeper of the series, in my opinion. Even an AU58FH brought over \$1,000 at auction recently. I think with very little pressure you could see a substantial increase in price. I see this date and mintmark with great hidden value in Non-Full Head and Full Head all the way down to AU. With so many encapsulated pieces, you would expect to find many more available on the market, but they remain much in demand. There are many great strikes available, outstanding except the head. Many collectors are satisfied with great strikes, even without Full Heads. So elusive in MS65, -66 and -67. Deserves a hard look when considering a medium to long term holding. Buy all you can find in the top three grades.

**1920-S:** With this date and mintmark already a scarce date, many are very weakly struck, especially in the head area, chain mail, and inner shield. This is characteristic for the "S" Mint coins. Not all of these areas are weak on each coin, but there is much variation in strike. In determining strike from wear, always look to the high spots: Liberty's right breast, inner shield, her right knee cap and her head - particularly her right cheek and temple. Look for these areas to be off-color; light brown or light golden, but only on the high spots. There is a much sought after die break of this date and mintmark (a small cud at Miss Liberty's left knee). We call it a **teardrop**, and it currently commands three to four times the normal price. An increasing number of collectors are becoming aware of this and the price reflects this interest and availability. As stated in my first book (published in 1975) I believed then that the 1920-S is the sleeper of the set. That has not changed. Now I add the Non-Full Head pieces as strong candidates for future appreciation. Much room remains for hidden value in the top three grades in Full and Non-Full Head grades.

# Another Fine Bowers and Merena Auction Awaits Your Participation

Whether you are a bidder or a consignor, Bowers and Merena can meet all of your numismatic auction needs. Our ability to secure the finest numismatic rarities for auction, and our ability to deliver the strongest realized prices, means that participating in a Bowers and Merena sale may very well be the most rewarding of all your numismatic endeavors.

## Professional Cataloging and Photography

Let our staff showcase your rarities in the same manner in which we recently presented the unique 1870-S Half Dime, 1873-CC No Arrows Dime, and the rare 1853-O No Arrows Half Dollar.

## Important Bidding Opportunities

Numerous important coins and notes will be offered in our August 2004 Pittsburgh Rarities Sale. Chief among these are PCGS Registry Sets of Lincoln Cents, Buffalo Nickels, and Jefferson Nickels. Rare date gold and key Morgan Dollars are also well represented. Don't miss your opportunity to bid!

## Consign to the Official Auctioneer

As the Official Auctioneer, we are accepting consignments for the October 2004 Las Vegas Invitational Coin Show Rarities Sale, the December 2004 and March 2005 Baltimore Coin and Currency Convention Auctions, and the April 2005 ANA Money Show Auction. Don't miss out on the opportunity to consign to these and other great auctions that Bowers and Merena will be hosting in the coming months.

## BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices, "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full steps" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

# How does YOUR recommended coin dealer measure up?

When selecting a coin dealer, it is important to know who you are choosing. Don't take a recommendation heard on the street, or in only one newsletter. Doing so could mean the difference between whether you choose a dealer with long-standing industry experience and recognition, or an upstart who could be gone tomorrow, or somewhere else altogether when you need to sell!

With over 25 years of professional experience and award-winning service to the rare coin industry, Mike Fuljenz is considered one of the most skilled dealers in numismatics by many. Bring this to any conference and compare Mike Fuljenz to any dealer or coin salesman. Compare any rare coin dealer's track record with Mike Fuljenz, and see how they measure up.

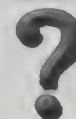

Mike Fuljenz

"Not Exactly"

**Vault Verification:**  
UCDN704D

<b>Has your dealer written an award-winning newsletter?</b>	Mike received six awards from the industry standard, Numismatic Literary Guild (NLG) for his newsletter.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<b>Has your dealer written award-winning books?</b>	Since 2000, Mike has received three (3) NLG Book of the Year Awards.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<b>Has your dealer received awards for his TV &amp; Radio reporting?</b>	Mike received 11 NLG Awards for Radio & TV reporting, including national reporting on CNBC-TV with Ted David and WOR Radio with Ken & Daria Dotan.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<b>Has your dealer received awards from numismatic industry associations?</b>	In 1996, Mike received the prestigious Presidential Service Award from the American Numismatic Association (ANA) for outstanding service to the rare coin industry.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<b>Has your dealer taught rare coin seminars for industry associations?</b>	From 1982-1998, Mike taught ANA summer seminars on rare coin grading and counterfeit detection to diverse classes of student groups, including collectors, dealers, investors, <u>and even the Secret Service.</u>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<b>Has your dealer authenticated and graded coins for a grading service?</b>	From 1982-1983, Mike was an authenticator/grader of rare coins for the ANA, and after testing was offered a similar PCGS position.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<b>Has your dealer served as Officer of a Numismatic Association?</b>	<ul style="list-style-type: none"> <li>• 1995-2003: Board Member for Industry Council for Tangible Assets (ICTA).</li> <li>• 1987-1989: Chairman of ANA's Certification Service Committee</li> <li>• 1983: Vice-President U.S. Commemorative Society</li> <li>• 1970-1973: President, Southwest Louisiana Coin Club</li> </ul>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<b>Has your dealer been consulted by government agencies?</b>	Mike was a consultant to the U.S. Postal Service, Federal Trade Commission, U.S. Mint, General Services Administration and the FBI.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<b>Has your dealer served the rare coin business for more than 25 years?</b>	Mike has more than 25 years of professional numismatic experience.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<b>Has your dealer headed the same business for more than 10 years?</b>	Since 1994, Mike has served as President of Universal Coin & Bullion, one of the nation's largest rare coin companies.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<b>Has your dealer headed a coin company with over \$50 million in annual rare coin sales?</b>	Mike is President of Universal Coin & Bullion, an organization which transacts more than \$50 million a year in sales.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<b>Has your dealer been a featured speaker at money conventions?</b>	For over 20 years, Mike has been a featured speaker at many large national rare coin conventions, including the ANA, Florida United Numismatists (FUN), Long Beach Expo and <u>Greater Houston Money Show.</u>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<b>Has your dealer been a member of the major numismatic grading services?</b>	Mike's firm is a long-standing member in both PCGS and NGC.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<b>Has your dealer served in his local community?</b>	Mike believes in community service, and has served as President of Beaumont Youth Basketball, Co-Head of the Umpires for the West End Little League, Coach for a Girls Select Soccer team, local school board member, and YMCA board member.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<b>Has your dealer become a member of their local Better Business Bureau?</b>	Mike has been an active member of his local Better Business Bureau for many years. Call Michael Clayton, CEO of local BBB to verify.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<b>In what coin areas has your dealer contributed to major reference books?</b>	Mike has contributed to leading books on silver dollars, gold coins, proof coins, commemoratives, grading, Franklin halves, and general guide books including the Red Book and Blue Book	<input checked="" type="checkbox"/>	<input type="checkbox"/>
<b>Is your dealer often the high bidder on dealer exchanges for coins he recommends?</b>	Mike and his representatives have routinely been the high bidder on Certified \$20 Liberties and \$2 1/2 Indians the past two (2) years.	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Universal Coin & Bullion wants to be your rare coin team.

**Let Us Set Records With Your Collection!**

## Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

### 8 GREAT REASONS TO JOIN TODAY!

#### 1 12 ISSUES OF NUMISMATIST.

Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

#### 2 BORROW THE BOOK BEFORE YOU BUY THE COIN.

The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

#### 3 LEARN WHAT THE EXPERTS KNOW!

The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

#### 4 SAVE MONEY.

The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

#### 5 INSURANCE.

Insure your collection for as little as 50 cents per \$100 of value. Your homeowners' policy can't match the rates or the coverage.

#### 6 GRADING AND CONSERVATION SERVICES.

Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

#### 7 ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.

Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

#### 8 MEDIATION SERVICES.

Mediation for numismatic disputes is available through the ANA.

### Hidden Values: Non-Full Head Standing Liberty Quarters

Part II

by J. H. Cline

Part II of this article begins with the year 1921. It does seem appropriate or planned (and in this case, neither) - just divine or dumb luck; however it does give the author the opportunity to elaborate on the slight modification (in my opinion) in the Standing Liberty Quarter that took place at the same time the U.S. Mint modified the Walking Liberty Half and the Mercury Dime. The lines on Miss Liberty's gown on the Walking Liberty Half were deepened and the remaining design was enhanced or accentuated, I believe. The Mercury Dime modification resulted in a much improved sharpening of the design for both the obverse and reverse. At this time, the reed and bead on the obverse of the Standing Liberty Quarter became much stronger, (especially from about 3 o'clock to about 9 o'clock), as well as much more definition in Miss Liberty's gown, shield, horizontal and vertical lines, and rivets on inner shield. On the reverse the eagle's breast feathers became much more delineated. There has been such a remarkable improvement to the design that I think of it as 1921 Type 1, and 1921 Type 2.

**1921:** This is a key date in all grades. The true scarcity is known by most collectors and dealers, but there is still hidden value in this rare date in MS65FH and Non-Full Heads. I believe there are two Types of 1921s. I think this occurred when the U.S. Mint modified the Dime and the Half Dollar, they also slightly modified the Quarter. Again, the big difference is in the reed and bead on the obverse. On Type 1, it is struck very shallow from about 4 o'clock to about 8 o'clock. On the Type 2, the reed and bead is very strong all the way around. Also, the rim seems to be much higher on the Type 2. A side-by-side comparison shows the difference. Type 2s have a stronger strike overall: shield lines, chain mail, rivets, toes and Miss Liberty's face. Some have a Full Head and some do not. I strongly recommend this one for very good hidden value.

**1923:** Very large mintage for a Standing Liberty Quarter: 9,716,000. Two BU rolls surfaced in California several years ago, making this year and mintmark easier to find. Full Heads are somewhat elusive. The digits of the date appear "flattened" or broader than we see on others in the series. This may have been to help in the striking of the date. The Mint was aware of the poor wearing qualities of the series. Many pieces have broken dies around the date. Normal weakness in the first digit of date, and the "9" is usually very sharp. Very available all the way to MS67 and well struck with the exception of the head. Many appear to have a Full Head, but upon a closer inspection they lack in the leaves in Miss Liberty's hair. However there have been some debates regarding this observation.

**1923-S:** This is another key date in all grades. I have seen in the last 12 months that some grades have **doubled** in price. Not too many secrets here. Some have tried to alter the 1928-S to a 1923-S, but remember the 1928-S has a **recessed** date. This makes it one of the easiest alterations to detect. Also, there have been "S" mintmarks added to 1923-P coins. This is much harder to detect. Check the location of the "S" both vertically and horizontally. Also, the "S" is frequently flat when an attempt was made to press it onto the 1923 "hilly" coin. Also, the digits of the date are still broader on the "S" Mint vs. the 1923 Philadelphia.

**1924:** With a mintage of 10,920,000 the 1924 falls into the "common" category and it is surprising that the top three grades remain scarce on the market. The 1924 has the **thinner** digits in the date. There is a rumor that a specimen strike or strikes exist of this date, and I examined one at a convention. It had incredible reflective fields, sharp

shield lines (though not as sharp as the 1916 or 1917 Matte Proofs exhibit). Most likely it was struck from a new die and struck very slowly, perhaps as a set-up piece which would, indeed, be struck more than once, but in perfect alignment with the first strike. Some 1924s also have a Matte finish appearance.

**1924-D:** So many 1924-Ds have die breaks around the date and sometimes the top half of the date is missing, due to cracked dies, of course. Continued striking with cracked dies results in the eventual breaking apart of the die. One of the most interesting characteristics of this date and mintmark is that it also comes with a nearly prooflike finish - mostly in MS66FH. There are many that come with a Matte finish. The rivets around the shield, (13 and #4 counting from the bottom to the top) are very flat or obliterated. Hard to find in G/VG/F; easier in Mint State. With 1924-S the opposite is true. Strange paradox! With so many available pieces there's not much hidden value here.

**1924-S:** Look at this date very carefully, even though they may be encapsulated. Many lack in Full Head criteria by today's standards. As is true of the "S" Mints (starting with the 1923-S through the 1930-S) these coins are very softly struck at the head as well as the shield lines - vertical and horizontal. 1924-S is one of the weakest of the lot! This coin is a **tough** one to find in MS63 and better. They just weren't nicely struck. 1924-S is a semi-key all the way down to Fine. Finding a piece or two of this date is a prize. There just doesn't seem to be many out there. (I'm speaking from experience.) Non-Full Heads should be considered, in the top three grades, for possible appreciation.

**1925 Type 3: Recessed Date:** Wouldn't it be nice if the Mint could get it all together? How about recessed date; strong sharp date? What about shield lines, rivets, toes, head? This is the beginning of **no** shield lines through 1930. Almost nonexistent, both vertical lines and horizontal lines. Most have "mushy" toes. 2nd, 3rd, and sometimes 4th rivets are missing or very flat. Many are softly struck overall. Less so in Non-Full Head than in Full Head. Comparable to the 1927-P in availability.

**1926:** For a mystery piece: why does the Philadelphia Mint strike come close to the weakness of the 1926 San Francisco Mint strike? A few broken dies of this year at Miss Liberty's leg, giving the false illusion of another fold in her gown (Left leg). These pieces are few and far between. Again, few if any shield lines, missing or flattened rivets 2, 3 and 4. Not as readily available as one would think. I think nicely struck Non-Full Heads are always a good choice.

**1926-D:** This is one of the weakest strikes in the series, i.e. shield lines (vertical and horizontal) Miss Liberty's toes, rivets on inner shield, chain mail, and head. There are almost no exceptions to this. Denver seemed to be having more than its normal striking problems as is evidenced by the weak strike on the 1926-D Dimes. Finding a decent strike is a real challenge and there are only 13 MS66 Non Full Head pieces encapsulated at PCGS and NGC combined. Sure seems like this could be the place to speculate a bit. Since 13 pieces would control this date and mintmark and grade completely if you add the MS66FH pieces (11) it sure is a scarce date. Side note: most 1926-Ds come blast white.

**1926-S:** Nearly a twin sister to the 1926-D. Not well balanced in money vs. rarity. I would go so far as to say the MS65 Non-Full Head looks like much hidden value. If you pick Full Head pieces, you will pay over 10 times more. 1926-S follows right in the footsteps of the 1924-S and 1927-S, being one of the weakest strikes in the series. A well struck 1926-S should be much in demand, with or without a Full Head. With a low mintage of 2,700,000, it should be scarce in all but the low grades. Again, extra metal at Miss Liberty's leg (see 1920-S) known as a "tear-drop" or "cud", makes these pieces very sought-after by error collectors.

**1927:** As you would expect, the 1927 is flat in the rivets, toes, shield lines and chain mail. This date usually comes blast white and with nice surfaces. With such a high mintage: 11,912,000 you could expect more than the small number of encapsulated pieces that exist in the higher grades. Unfortunately, this is not so. MS66 and MS67 have a NGC and PCGS combined population, a minuscule 89 pieces in Non-Full Head and

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet), both report the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight seen. The coins may be certified or "Raw" (uncertified) but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

the COIN DEALER Newsletter

www.greysheet.com • cdn@greysheet.com

Full Head. This still looks as though it has a very decent investment potential.

**1927-D:** Probably the weakest "D" Mint in the whole series. The weakness continues, with no shield lines and almost never are the toes separated - particularly on Miss Liberty's right foot. Shield lines disappear on nearly all 1925-1930 pieces. With a mintage of only 976,000, you would expect more than 50 pieces of MS66 and MS67 Non-Full Heads and Full Heads combined. I think this date and mintmark is poised for a **huge increase** in both demand and price (and should be). Also, the bottom star next to the mintmark is usually flat.

**1927-S:** The 1927-S is very softly struck as are many of the pieces in the 1920s. I don't think I have ever seen a 1927-S with full shield lines and rivets. An MS66FH that is encapsulated comes the closest to being the exception. There are a few pieces of this date that are real "screamers; but they still only have approximately 50-60% Head! A well struck 1927-S is virtually non-existent. Added mintmarks to Philadelphia examples of this date do exist. Caution is in order! The added "S" is usually blobbed or off location, and also the bottom z of the "S" looks like part of a circle on the non-genuine pieces. The genuine pieces have equally balanced "S" mintmarks. Some of the 1927-Ss are castings and have a granular look - like grains of sand - in the fields. Since the Philadelphia coins are much stronger strikes, if it has an "S" mintmark and it looks too good to be true - it probably is! Still, the 1927-S is undervalued and very elusive in MS64, MS65, MS66 and MS67. It looks like there is much hidden value here.

**1928:** This is one of the most difficult pieces to keep in our inventory in MS65FH and MS66FH. I think this is a **very underrated** date and mintmark. The overall strike on the 1928 is much better than the other Philadelphia Mint strikes from 1925 through 1930. When you can get it all together - good strike, sharp devices, and good rivets - what a beautiful coin! Certainly not all pieces of 1928 are screamers, but if you will take your time, they are out there. However, you will have to overpay to purchase these top-of-the-line pieces when you find them. This is the toughest "P" Mint to find in the entire series, except for the 1916 and the 1921, of course. All in all, 1928 is a good striking year. It is much more scarce than current Bids would indicate.

**1928-D:** The 1928-D remains relatively inexpensive for a piece with such a low mintage: 1,627,600. By comparison there are over 300,000 more 1919-Ds Minted and over 200,000 more 1919-Ss. These dates have been keys for many years. What happened? There seems to be a mystery here. Both 1919 branch Mints have a higher mintage and the 1928-D remains so "common". The exception is the Full Head pieces, but that is not what this article is about. My guess is that "not all that glitters is Gold". I think in the Roaring 20s many million more 1928-Ds were Minted than were recorded. I will listen to other guesses! Many are found with weak/mushy strikes, including the eagle's breast feathers. It is a real challenge to find anything with a great strike.

**1928-S:** There are large and small mintmarks of this date, and just recently NGC has begun to encapsulate them with that designation. The Small "S" mintmark is many times scarcer than the Large, or normal one. There is also a Large "S" over a Small "S" variety. These can usually be seen with a 7X magnifier and they command a hefty premium over the regular strike. The Lg. "S" over Sm. "S" has a die break running from the bottom star on the right side of the coin that passes through the pedestal upon which Miss Liberty stands. ANACS now acknowledges this, and encapsulates it accordingly. (There are also "D" over "S" and "S" over "D" mintmarks. Additional information can be found in my book on page 121 of the Third Edition of "Standing Liberty Quarters".

**1929:** According to the census/population numbers for this date, the Non-Full Head pieces are much more scarce than the Full Heads. The 1929 and 1930 Philadelphia pieces are parallel in price, but the 1929 is the scarcer of the two. It certainly is a treat when I can find any 1925 to 1930, fully struck with rivets, shield lines, chain mail, etc.; with or without Full Heads. Many come blast white and some are a chalky-white. Many pieces are available, except in MS67 Non-Full and Full Heads.

**1929-D:** I believe this piece is very underrated and deserves some serious attention. It has a grand total of 65 pieces encapsulated in MS66 and better in Non-Full Head and Full Head. Why is this date and mintmark not many times more scarce than the high dealer Bids imply? There are 478,000 fewer 1929-Ds struck than there are 1919-Ss, yet the 1919-S is the big key (especially in MS66 and MS67). Both Non-Full Head and Full Head pieces of this date/mintmark usually are available in blast white and very blast white, with beautiful fields - some fields are near prooflike! The National Coin Collection in the Smithsonian Institution in Washington D.C., has a prooflike 1929-D that is outstanding in every respect. However unless there is a change in plans, that collection will not be available for viewing as the Smithsonian plans to eliminate their exhibiting of coins.

**1929-S:** Probably the best San Francisco Mint strike, overall, in the series, although not in Full Head. It lacks considerably in this area. There are a good many encapsulated pieces to choose from in this date/mintmark, but not in MS66 or MS67. Still, it is considered a "common date" by most collectors. Ten rolls of these in original condition were uncovered in California about 12 years ago, and I got to pick out my choices and bought 10 pieces. They had great strikes; some were beautifully toned with light golden and rose colors around the periphery.

**1930:** Perhaps the 1929 crash in the stock market, and the many jobs lost as a result of that caused the U.S. Mint workers to look hard at any avenue they could pursue to extend their jobs? The stellar strikes that sometimes occur in this date/mintmark could indicate an effort to show the supervisors that the workers were worth keeping. MS66 and MS67 Non-Full Heads and Full Heads are abundant, and are frequently used along with the 1917 Type 1 for Type Sets - skipping the Type 2 altogether.

**1930-S:** Another underrated date and mintmark in the series. With the Full Head pieces and the Non-Full Head pieces having nearly an equal number of encapsulations in the top three grades, the Bids seem a bit out of line. I think the Non-Full Heads have a bit of catching up to do. It has always been one of my favorite pieces. The challenge is to see how many of the 1930-Ss you can find compared to the 1930-P or even the 1920-P. It is usually thought to be the same as the 1930 but this should not be. Firstly, the 1930-S has approximately 4 million fewer Minted pieces than the 1930-P. The 1930-S is most always found to be weakly struck. On the other hand, the 1930-P is one of the strongest strikes in the series. This date and mintmark looks good in Mint State; with and without Full Heads. Watch for these at conventions and in advertising and you will see the difference in availability between the 1930-P and 1930-S. Many, many times more of the Philadelphia pieces than the San Francisco pieces appear. Hoard these! Potential is great, in my humble opinion.

## Consign to the Official Auctioneer of the First Las Vegas Invitational Coin Show Auction at the Mandalay Bay Hotel

BOWERS AND MERENA is thrilled to have been selected as the *Official Auctioneer* of the first October Las Vegas Invitational Coin Show. There is no better venue, and no hotter market in which you should consider selling your rare coins and currency. With the luxurious Mandalay Bay Hotel playing host, the Bowers and Merena Las Vegas Rarities Sale on October 28-29, 2004 is sure to be one of this year's most important numismatic events.

### **Bowers and Merena and the Las Vegas Invitational Coin Show When It's Time To Sell, Let Our Success Be Your Success!**

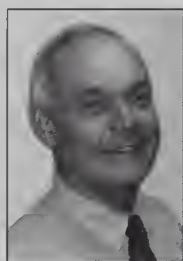

When you consign to a Bowers and Merena auction, you can rest assured that your rare coins and currency will be offered in their best light.

#### **The Bowers and Merena Advantages**

- Superb Cataloging
- Expert Photography
- Award-Winning Catalog Format
- Highest Realized Prices

#### ***Consign now!***

Call 800-458-4646 and ask for Steve Deeds or Reid Wolf to consign your numismatic treasures to the Bowers and Merena October 2004 Las Vegas Rarities Sale.

*Steve Deeds*

# Superior Coins Demand The Superior Treatment

COMBINE SUPERIOR'S SERVICE, EXPERIENCE  
AND RECORD-BREAKING SALES TO REALIZE  
TOP MARKET VALUE FOR YOUR COINS

For nearly 75 years, Superior Galleries has been helping collectors realize top prices for their coins, estates and other numismatic material. Collectors like **Jascha Heifetz, Dr. Jerry Buss, Buddy Ebsen, Dr. Charles L. Ruby, Emanuel Trompeter, Robinson S. Brown, Jr., Buddy DeSylva and Efrem Zimbalist, Jr.** Estates and institutions have also turned to Superior over the past eight decades. Institutions such as **The Smithsonian, Father Flannagan's Boys Town, The Los Angeles Orthopedic Foundation, California Institute of Technology, University of Wisconsin, University of New Mexico** and more.

Here are just a few of the advantages we offer to each and every client:

- ✓ The **highest possible auction advances** with no limit in value at extremely competitive interest rates.
- ✓ The **lowest possible consignment rates** of any other coin auction company in America.
- ✓ The **largest combined mailing list** of buyers in the rare coin market, with over **100,000 names and addresses**.
- ✓ **Live, interactive bidding**, utilizing cutting-edge technology with real-time excitement to lure bidders from their home or office and placing them side-by-side with floor bidders to achieve **maximum participation and prices realized**.
- ✓ An established joint venture **partnership with eBay** and its **70 million buyers**.
- ✓ The **most significant concentration of wealth** in and around our offices located across the country: on the East Coast near New York City and Philadelphia; on the West Coast in Beverly Hills and Newport Beach, California.

## When it's time to consign, real collectors choose the best

Superior has proven it time and time again: Great coins deserve to be placed in their best light. We have the experience, knowledge and history to provide you with the best possible service and satisfaction. Contact us today for a free, confidential assessment of your collection.

# Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

## 8 GREAT REASONS TO JOIN TODAY!

### 1 12 ISSUES OF NUMISMATIST.

Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

### 2 BORROW THE BOOK BEFORE YOU BUY THE COIN.

The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

### 3 LEARN WHAT THE EXPERTS KNOW!

The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

### 4 SAVE MONEY.

The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

### 5 INSURANCE.

Insure your collection for as little as 50 cents per \$100 of value. Your homeowners' policy can't match the rates or the coverage.

### 6 GRADING AND CONSERVATION SERVICES.

Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

### 7 ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.

Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

### 8 MEDIATION SERVICES.

Mediation for numismatic disputes is available through the ANA.

### **DEEP MIRROR PROOF LIKE DOLLARS UNDervalUED & IN DEMAND**

by Don Rinkor

Collecting Morgan Silver Dollars is a passion for many. No one would dispute that the Morgan Dollar series is, by far, one of the most collected series in Numismatics. With over 100 different dates and Mint marks, and thousands of die varieties, it is easy to get lost if you don't have a specific area of focus.

Within the Morgan Dollar series, there is an area of focus that represents not only great value, but also one of the most beautiful coins ever made. DMPL Dollars, or "Deep Mirror Proof Like" represent the highest quality level available for standard business strikes. Proof coins are made with very specific intentions to produce a high quality collector coin, but coins struck for general circulation are not made with the same objective. They were struck, dropped in a bucket, bagged, piled, and tossed around without any concern for the condition of the final product. The fact that such coins exist in high quality, much less with pristine proof like surfaces, is quite amazing.

DMPL Dollars are the first coins struck from new standard production dies or from freshly polished dies. Each strike removes a bit of the highly polished surfaces which causes the subsequent Dollars to have less reflective surfaces. This results in most Dollars having a frosted or brilliant surface depending on the life of the die and the number of coins struck. Only the first several hundred coins will have proof like surfaces and even fewer will have truly DMPL fields.

Certified Dollars that have been designated as PL (proof like) or DMPL command very high premiums over standard Mint State coins in all grades. As you would expect, DMPL Dollars will command much higher prices than PL's. There are a number of dates that are almost impossible to find certified as DMPL and in this case a high quality PL would be a rare find. Some of the rare dates are the 1883-S, 1892-S, 1893-P, 1893-CC, 1897-O, 1900-P, 1902-S, 1903-P, 1904-P, and 1921-D. There are several dates that have **no** DMPL Dollars graded at any level based on the totals found in the latest PCGS population report. These dates are 1879-S reverse of 78, 1884-S, 1893-S, 1902-P, 1903-S, 1904-S, and 1921-S. Any PL Dollar in these dates would be an incredible find.

Within any grade and even within PL and DMPL designations, you will find a variety of quality levels. Some PL Dollars will look very much like DMPLs and some DMPL Dollars will appear closer to PL. Grading is subjective and so is the designation of PL or DMPL. Grading services consider this designation based on how clearly the reflection of the fields appear and the distance with which you can read standard news print or something similar as a gauge of measurement. Often a coin will be designated as a PL when one side of the coin is less reflective than the other. Both the obverse and reverse of the coin must meet the required degree of reflectivity to qualify for the grade. Some Dollars that appear to be PL may not be designated as such

because they are single sided proof likes. Significant die polishing may result in some Dollars being certified as PL rather than DMPL. A number of dates display significant die polishing lines on the reverse. This is common on many **San Francisco** Mint issues including: 1878, 1879, 1881, 1882, 1885, 1886, 1887, 1891, and 1897. Even though you would consider several of these dates to be somewhat common in DMPL, because of the die polishing, many of these dates will only grade PL. The 1878-S, 1879-S, 1881-S, and the 1882-S will all trade well above an 1880-S. Only 15 MS65 DMPL 1878-S Dollars and 29 MS65 DMPL 1882-S Dollars have been graded by PCGS compared to nearly 600 dated 1880-S in the same grade. The 1878-S and 1882-S are examples of super rare dates in high grade DMPL. Die polishing lines do not always restrict a coin to PL status. Die polishing lines are visible on almost all DMPL Dollars, but if they significantly limit the reflectability of the fields, you will likely have a Dollar that would only be certified as PL.

The *"Encyclopedia of Morgan and Peace Dollars,"* written by Leroy Van Allen and George Mallis indicates that to receive a PL designation, the Silver Dollar would need to have between 2 and 4 inches of clear reflection. 4 to 8 inches of clear reflectivity would be the requirement for the Silver Dollar to achieve a DMPL grade. This requirement is for both the obverse and reverse of the coin. Some Dollars will possess mirrors that seem nearly infinite. These are considered **Ultra** deep and are very rare. Possibly as few as 3-5% of all certified DMPL Dollars would be considered Ultra DMPL. As you would expect, Ultra deep mirrored Dollars will often command the highest prices and you will seldom see one sitting in a dealer's display case for more than a few hours at any coin show.

Eye appeal is everything when you collect DMPL Dollars. The eye appeal is not based entirely on the level of reflectivity, but mostly on the cameo effect that is created by the deeply mirrored fields contrasting with the frosted devices, or raised portion of the coin. Cameo contrast is quite striking and very appealing to a collector of DMPL Dollars. Huge premiums are paid to purchase Dollars with intense contrast. The term "Black & White" is often used to describe coins that possess Ultra deep mirrors and frosty white devices. These are considered the Holy Grail to DMPL Dollar collectors. When the fields are so deep that they appear black and the frosty white devices look like they are floating on water....you have a "Black & White" DMPL Dollar.

A number of dates are attainable with "Black & White" contrast while other dates are nearly impossible to find. Many Carson City Dollars can be found with intense cameos and very deep mirrors. The 1881-CC, 1882-CC, 1884-CC, and 1885-CC Dollars will tend to offer the best cameo contrast. Along with the "CC" Dollars, other dates include 1878 8tf, 1880-S, 1879-O, 1881-O, 1884-O, 1885-P, 1885-O, and the 1898-O. Other dates are possible, but are much more difficult to find. The most common is obviously the 1880-S, 1884-O, 1885-P, and the 1885-O. These coins will often bring double *Greysheet* DMPL Bid, or more, when fully "Black & White". The same applies to the Carson City Dollars. The greater the degree of contrast and the more striking the eye appeal the higher price they will command.

There are some tough Carson City Dollars to find with strong cameo contrast. The 1878-CC, 1880-CC, and the 1893-CC Dollars are very difficult. Almost all 1880-CC Dollars have a cloudy

## MONTHLY SUPPLEMENT

COPYRIGHT 2004 COIN DEALER NEWSLETTER, A DIVISION OF CDN INC.  
Reprint of any issue without permission is expressly forbidden by law.

EXECUTIVE DIRECTOR Pauline Miladin  
EDITOR Keith M. Zaner  
PUBLISHER Shane Downing  
CIRCULATION & ADVERTISING Betty Morris

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified) but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc. 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.  
Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

### DMPL Dollars Total PCGS Population All Grades:

1900-P	4 coins
1900-S	9 coins
1901-P	1 coin
1901-S	5 coins
1902-P	0 coins
1902-S	1 coin
1903-P	4 coins
1903-S	0 coins
1904-P	2 coins
1921-P	13 coins
1921-D	1 coin
1921-S	0 coins

milky look to the mirrored fields. The exception is the 1880/79-CC Dollar which will often have very strong contrast. The 1889-CC, 1890-CC, 1891-CC and 1892-CC Dollars can occasionally be found with significant contrast.

Dollars minted in the late 1890's and early 1900's seldom display any cameo contrast. The 1897-S, 1898-O, 1898-S, 1899-O, and the 1899-S will occasionally have nice cameos, but none of the "P" Mints or any post 1900 dates show contrast. Occasionally you will find a 1904-O Dollar that will have a slight cameo, but this would be

a rare find. These Dollars do not have the eye appeal that coins from the 1880's and early 1890's do, but most of these later date coins are extremely rare in DMPL at any grade level. Some dates have less than a dozen coins certified in any grade of DMPL.

There are only about 3 dozen coins in all DMPL grades encompassing 12 different post 1900 dates....did I mention that these guys are very rare?

From an investment stand point, DMPL Dollars are very undervalued when you consider the population levels of many of the better dates and even common dates. Consider even the most common 1880-S Dollar in MS65 you will find that approximately 2% of all coins graded at that level are DMPL and yet they sell for only about 4 times a standard Mint State version.

Date	PCGS Population	
	MS65 DMPL	MS66 DMPL
1878-S	15	3
1879-S	132	40
1880-S	577	177
1881-S	213	58
1882-S	29	8
1883-P	62	7
1884-P	22	5
1884-O	215	48
1885-O	203	25
1886-P	117	20
1887-P	155	29
1888-P	32	9
1889-P	27	3
1896-P	110	6
1897-P	19	2
1898-P	59	9
1898-O	132	36
1899-O	41	16
1902-O	4	0
1904-O	94	15
1921-P	1	0

That may represent a terrific value and the eye appeal is far superior!

Common dates that are not common in DMPL based on the latest PCGS population report. Notice the quantity of 1880-S Dollars in MS65 and MS66 DMPL compared to the other dates. Also consider these figures compared to Mint State coins in the same grade.

If you pull out a population report and run down the list of DMPL Dollars, you will find that the population levels of all DMPL Dollars are a tiny fraction in any date. Superior eye appeal and superior value for both the collector and investor. Only recently has there been much attention to this specialized field. Years ago you could easily find DMPL Dollars in most dealer's inventories. Today is a different story. Many dealers will not have even a single DMPL Dollar in stock. Those that do usually have

only a few. Most of the rare date DMPL Dollars seldom are offered for sale and when they come up in an auction, strong competition is evident.

Posted Bid levels for DMPL Dollars have been increasing over the past year, but they still lag their true rarity. Most dealers are willing to pay strong money for nice examples and especially so if the coin has the eye appeal. The popularity of DMPL Dollars combined with the very limited number of quality coins will likely result in prices continuing to increase. Since they aren't making any more of these guys, it is doubtful that there will be a major change in the population levels.

There are a few areas of concern with regard to prooflike Dollars in general. Finger prints that you see in the reflective fields will seldom be removable. Mishandling of PL and DMPL Dollars can cause hairlines, scuffs and finger prints. Often a finger print can be removed from a standard Mint State Dollar with no evidence it was ever there, but on prooflike surfaces the finger print etches into the fragile mirrors. Attempted removal leaves behind a permanent hazy shadow of the print. You will also find some DMPL Dollars that display hazy or cloudy mirrors. While this cloudiness or haze may not restrict the coin from grading DMPL, it will certainly have an effect on the eye appeal which will often lower it's potential value. The clearer the mirrors, the deeper the reflection.

DMPL Dollars with toning can be very attractive. If you can find a coin with ring of light peripheral toning surrounding the deeply mirrored surfaces and throw in a frosty white cameo, you will likely have a very stunning Morgan Dollar. Toning can be a detriment if it is drab, blotchy or unattractive. Consider how the toning affects the reflective fields. Too much toning may limit the depth of the mirrors. Silver tones quite easily and most silver Dollars will show some evidence of toning.

In my opinion, grading standards for DMPL Dollars have become a bit more strict in recent years. Consider carefully, coins in older holders, as there are some PL Dollars residing in DMPL holders. This applies to all grading services. If the fields appear to display a significant amount of cartwheel effect or a lot of die polishing, you are most likely looking at a PL Dollar. Remember, DMPL Dollars with shallow fields will sell at lower levels and are not as much in demand. On the other side of the equation, there are a very few certified PL Dollars that would possibly regrade as DMPL by today's standards. Basically, you want to be sure that if you are buying quality DMPL Dollars, and that they are truly Deep Mirror Proof Like.

What more could a DMPL Dollar collector ask for...eye popping, heart pounding rare coins that are an excellent value for their money. Got DMPL Dollars?

# Call Spectrum Today, Get Cash Tomorrow...

Cash is king in today's economy – and the Spectrum family of Numismatic Auctions has plenty of cash available for outright purchase of your coins. If your top priority is immediate cash, and your collection or holding is significant, we'll have one of our experts meet with you tomorrow at the location of your choice, and **you'll get a check on the spot!** With your cash in hand you can take the vacation of a lifetime, pay off your mortgage or buy yourself that luxury convertible you've always dreamed of. You can use the cash any way you want... with no waiting. Call Spectrum today, get cash tomorrow. No amount is too large!

## Or Maximize Your Profits On A Schedule of Your Choosing...

If you're like many collectors, dealers, investors, attorneys, banks and financial institutions we've worked with, you don't need cash tomorrow.

You'd rather maximize the total return on your coins. The coin experts at Spectrum's three major auction houses will place your coins into the right auctions to maximize the cash delivered to you. Your coins will be photographed and prominently featured. They could even appear on the catalogue's cover. And, when appropriate, we'll name a sale for you!

If you need *some* of your cash immediately, we'll purchase a portion of your holdings or arrange a generous cash advance for qualified auction consignments. It's the best of all worlds: immediate cash and/or top auction prices at the nation's most prestigious auction houses... **all according to your needs.** All cash tomorrow... prominent placement in leading auctions... generous cash advances... or any combination that fits your needs, your holdings and your timetable. The friendly and knowledgeable Spectrum numismatists will work with *you* to achieve *your* goals on *your* schedule.

## Let These Three Great Auction Houses Help You Achieve YOUR Goals

You know our names. You know our reputations. Call toll-free today to sell your coins for immediate cash tomorrow (no amount is too large), or to discuss placing them in an upcoming sale at one of these prominent auction houses:

**BOWERS AND MERENA AUCTIONS**

*When great collections are sold... Bowers and Merena sells them!*

*The pre-eminent rare coin auction company of the last three decades.*

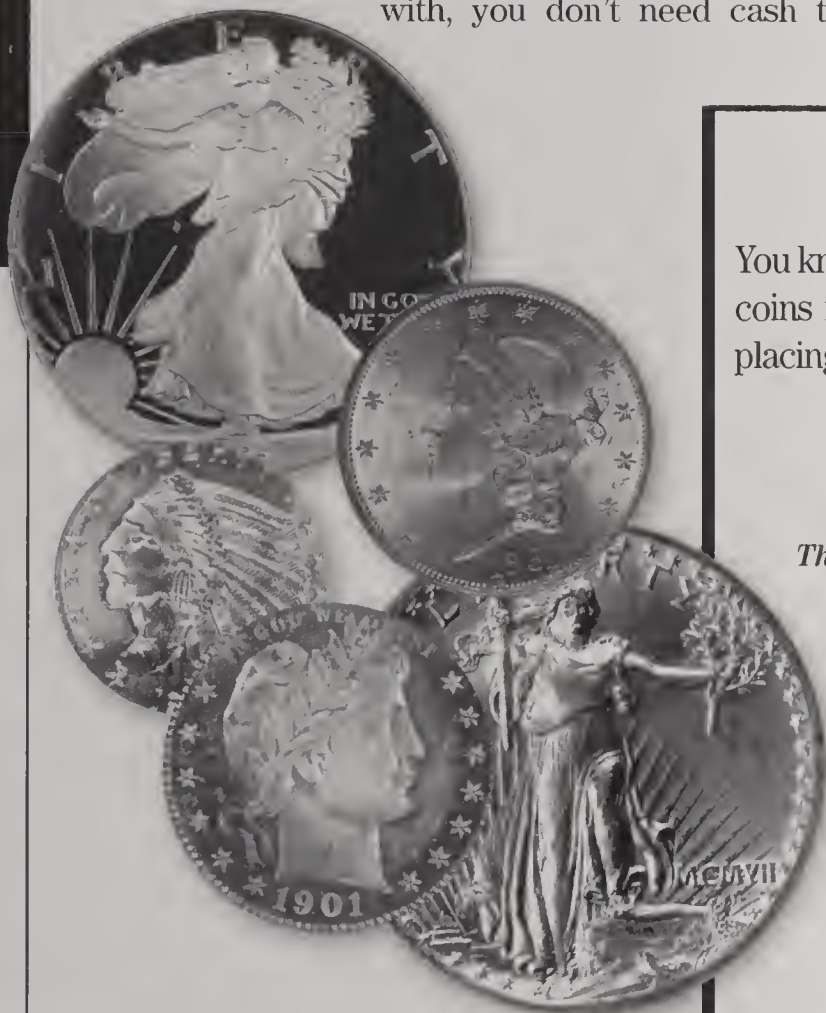

**KINGSWOOD COIN AUCTIONS**

*Specializing in mid-range PCGS and NGC certified coins.*

**Teletrade**

Trusted By Serious Collectors Worldwide

*Offering over 150 exclusively internet auctions annually.*

**Call Toll-Free today 888.540.2646 for a Free Cash-Maximizing consultation.**

*Service. Experience. Dependability.*

*It pays to choose the very best.*

# Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

## 8 GREAT REASONS TO JOIN TODAY!

### 12 ISSUES OF NUMISMATIST.

Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

### BORROW THE BOOK BEFORE YOU BUY THE COIN.

The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

### LEARN WHAT THE EXPERTS KNOW!

The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

### SAVE MONEY.

The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

### INSURANCE.

Insure your collection for as little as 50 cents per \$100 of value. Your homeowners' policy can't match the rates or the coverage.

### GRADING AND CONSERVATION SERVICES.

Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

### ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.

Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

### MEDIATION SERVICES.

Mediation for numismatic disputes is available through the ANA.

### “CC” Mint 10-Piece Type Sets Serving It Up Buffet Style

By Rusty Goe

Glance at a menu from a popular restaurant and notice the options for diners indecisive about what to order. Perhaps a nice juicy steak sounded good before arriving, but then the sight of a shrimp platter delivered to another table aroused the taste buds. While looking at the colorful pictures in the menu, the diner sees the yummy Baby Back Bar-B-Que ribs and does a double take. Decisions, decisions.

Alas, the friendly waitress points to the sampler plate that includes a small portion of steak, shrimp, ribs and for good measure, chicken. What a wonderful solution to a perplexing predicament for a ravenous palate. Satisfied, the diner may now feast on an assortment of tasty delights.

It is for this very reason that buffets are popular with many diners. Long lines of tantalizing culinary faire laid out for hungry souls to sample as many mouth-watering menu items as their appetite's delight (and their stomachs) can hold. These same voracious diners may on any given night choose a restaurant that offers one specific type of cuisine, however, while gorging at a buffet, they may experience such decadent pleasures as Chinese, Mexican, Italian and American dishes. Once in a while variety is the spice of life.

So it is with coin collecting! You may be contemplating a collection of coins from the Carson City Mint, or perhaps just adding a few pieces of “CC” coins to your portfolio. Which direction should you proceed? Silver, Gold, Dollars, Dimes, or...? There are ten different Types to choose from, what is your pleasure? To many collectors, they all seem so fascinating, whereas some people devote their lives to one specialized series.

Assuming that you have not yet made a decision and are looking for a suggestion, this article will attempt to offer you a little guidance. Based on many years as a coin dealer, and experiencing the occasion of dozens, if not hundreds of collectors, asking how to begin collecting “CC” coins, I have found that the 10-piece Type set brings great satisfaction.

This is the buffet approach, or sampler plate, if you will. With a 10-piece Type set you will enjoy a sample of all that the Carson City Mint has to offer. Upon completion, you will not only have learned much about the particular coins in general; but also about the comparative rarity of “CC” coins versus coins from the other Mints, as well as the history of the times in which they were made.

#### 10-PIECE “CC” TYPE SET

- |  |   |
|--|---|
| <input type="checkbox"/> Seated Liberty Dimes (1871-1878)          | <input type="checkbox"/> Trade Dollars (1873-1878)      |
| <input type="checkbox"/> 20-Cent Pieces (1875-1876)                | <input type="checkbox"/> Morgan Dollars (1878-1893)     |
| <input type="checkbox"/> Seated Liberty Quarters (1870-1878)       | <input type="checkbox"/> Gold Half Eagles (1870-1893)   |
| <input type="checkbox"/> Seated Liberty Half Dollars (1870-1878)   | <input type="checkbox"/> Gold Eagles (1870-1893)        |
| <input type="checkbox"/> Seated Liberty Silver Dollars (1870-1873) | <input type="checkbox"/> Gold Double Eagles (1870-1893) |

Essential to any collecting endeavor is knowledge of the set composition. A 10-piece Carson City Type set consists of the following coins: (10-Piece Type Set)

Of the ten different Types, the three Gold denominations are the only coins produced during the entire lifetime of the Carson City Mint, 1870 to 1893. There were a few years in which production halted, but of the 24 years of operation, each of the Gold denominations was struck in 19, although not all in the same years.

Seated Liberty Dimes were introduced in 1871 at the Carson Mint and ceased production in 1878. Seated Liberty Quarters and Half Dollars were minted between 1870 and 1878, with no Quarters being struck in 1874. Seated Liberty Silver Dollars were only minted in four years before the Coinage Act of 1873 brought production to a halt.

The short-lived 20-Cent piece series survived only two years of production, 1875 and 1876, resulting in the 1876-CC 20-Cent piece becoming one of the rarest issues in U.S. coinage history. Another short-lived series, the Trade Dollar, minted between 1873 and 1878 at Carson City, offers six different dates plus the S/CC variety in 1875 for the collector. Rounding out the group is one of the most heavily produced coins from the Carson City Mint, the Morgan Silver Dollar, extending from 1878 through the end of coinage operations in 1893, interrupted for three years from 1886 to 1888.

With a clear knowledge of the different Types the set consists of, the collector must narrow the choices based on several factors, price range, date selection, and grades. Beginning at the top and working down, the #1 ultimate 10-piece Carson City Type set would consist of the following coins: (Ultimate Set #1)

This mind-blowing group of dazzling numismatic treasures has an estimated price tag of between \$3,700,000 and \$4,000,000, give or take a few bucks.

Of course, only one fortunate collector could own this set at a time since all of the coins are “Pop 1s” (only one example known in the grade). And in the case of the 1873-CC *Without Arrows* Dime, only one specimen exists, period!

Most collectors do not participate at this grand and privileged level,

#### SPECTACULAR “CC” TYPE SET #2

price for this impressive #2 set of coins is \$1,500,000, still in the upper echelon of numismatic pursuits.

Before you throw in the towel, consider this fine selection of desirable coins with the “CC” mintmark: (Set #3)

This splendid #3 set would bring years of delight to even the most discriminating collectors for an estimated cost of \$120,000.

Promises of countless opportunities for hobbyists with a hunger to experience the joys of collecting Carson City coins bring us to the next set, consisting of: (Set #4)

How does \$20,000 sound? Some of you may be thinking “well, at least we’re getting there.”

At this point, it might be time to consider the lowest end of the collecting pole in regards to a 10-piece Type set of coins from the Carson City Mint. Keep in mind that there are dozens, if not hundreds

PUBLISHER Shane Downing  
CIRCULATION & BETTY MORRIS  
ADVERTISING

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "Raw" (uncertified) but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market, such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only.

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

<input type="checkbox"/> 1870-CC Eagle	PCGS VF-25
<input type="checkbox"/> 1870-CC Double Eagle	PCGS VF-20

of price levels for this set between the lowest to the ultimate; and remember, with "CC" coins there are no losers. Ownership of any examples with this special mintmark will bring pleasure; and there is always the opportunity to upgrade as you journey along the path to your goal. The following #5 set of coins is "Raw" in terms of grading,

### CIRCULATED "CC" TYPE SET #5

<input type="checkbox"/> 1877-CC Seated Dime	VF
<input type="checkbox"/> 1875-CC 20-Cent piece	F
<input type="checkbox"/> 1876-CC Seated quarter	VF
<input type="checkbox"/> 1877-CC Seated Half Dollar	VF
<input type="checkbox"/> 1870-CC Seated Dollar	VG
<input type="checkbox"/> 1875-CC Trade Dollar	F
<input type="checkbox"/> 1883-CC Morgan Dollar	XF
<input type="checkbox"/> 1893-CC Half Eagle	F
<input type="checkbox"/> 1891-CC Eagle	F
<input type="checkbox"/> 1890-CC Double Eagle	VF

in contrast to "Slabbed" or certified: (Set #5)

You can assemble a similar group of coins for approximately \$2,800, assuming of course that they are accurately graded.

Is it possible to build a set for less than \$2,800? Without a doubt, just so you re-

alize that the lower you descend the pricing ladder, the poorer the quality that the coins will be. A rock bottom price would probably be in the neighborhood of \$1,750. You would not be impressed by the coin's eye appeal, but the ten "CC" mintmarks would still bring satisfaction.

There really are so many options to explore when considering building a 10-piece "CC" Type set, not least of which would be one featuring different varieties available within the full range of Carson City coinage. An example would be the following assemblage of coins: (Variety Set #6)

### "CC" VARIETY TYPE SET #6

<input type="checkbox"/> 1875-CC "Below Bow" Seated Dime	PCGS MS-64
<input type="checkbox"/> 1875-CC "Strong Strike" 20-Cent	PCGS MS-63
<input type="checkbox"/> 1873-CC with Arrows Seated Quarter	PCGS F-15
<input type="checkbox"/> 1873-CC without Arrows Seated Half	PCGS XF-45
<input type="checkbox"/> 1870-CC "Wide Spaced CC" Seated Dollar	PCGS XF-45
<input type="checkbox"/> 1876-CC "Double Die Rev." Trade Dollar	PCGS AU-58
<input type="checkbox"/> 1890-CC "Tail Bar" Morgan Dollar	PCGS AU-58
<input type="checkbox"/> 1880-CC "With Tears" Half Eagle	PCGS XF-45
<input type="checkbox"/> 1892-CC "Rev. Clashmarks" Eagle	PCGS XF-45
<input type="checkbox"/> 1875-CC TY II "TWENTY D." Double Eagle	PCGS XF-45

The estimated cost for this interesting set is \$19,500; and of course, there are many variations on the theme.

You can virtually stretch the limits of your imagination and create a set that suits your fancy. A few collectors may be so inclined to center their Type set around a specific date and fill in the missing pieces with dates and denominations not available in the primary year set. For example (Specific "CC" Type Set #7)

The core year in this set is obviously 1870, and the Double Eagle, accounting for at least \$100,000 by itself, heavily influences the estimated price tag of \$150,000.

### SURVIVING POPULATION ESTIMATES LIMIT NUMBER OF SETS POSSIBLE

One factor significantly influencing both the desirability and limitations of 10-piece "CC" Type sets is the surviving populations of each denomination within the series. The number of sets that can possibly be assembled is limited by the denomination with the lowest quantity of surviving specimens. In this case, the Seated Liberty Silver Dollar is the key, with an estimated surviving population of 1,200 or fewer pieces. Take a minute to review the following table listing all denominations in the Carson City series and their estimated surviving populations.

### Estimated Surviving Populations of All Denominations from the Carson City Mint

Seated Dimes	84,000 or fewer
20-Cent pieces	10,000 or fewer
Seated Quarters	19,100 or fewer
Seated Half Dollars	20,300 or fewer
Seated Dollars	1,200 or fewer
Trade Dollars	2,000 or fewer
Morgan Dollars	4,500,000 or fewer
Half Eagles	9,300 or fewer
Eagles	9,600 or fewer
Double Eagles	27,500 or fewer

Based on these estimates, no more than 1,200 10-piece "CC" Type sets could be completed. Even if the next lowest surviving denominations were considered, the number of possible sets would be limited to 9,300 to 10,000.

This is one of the chief factors making this set so attractive to collectors; there are enough possible sets available to make a game of it, but not enough to ever flood the market. It is truly a fair trade environment offering endless profit potential. When you complete your 10-piece Carson City Type set you will have the satisfaction of knowing that you have become one of the privileged souls to achieve this rewarding accomplishment. You will be a custodian of the coins in your set that eventually will be passed on to future collectors. Every one of the fortunate few successful enough to build a 10-piece "CC" Type set will thoroughly enjoy the fruits of his or her labor.

1996 W Cauldron BU / 1996 W Proof	325.00 +	350.00	265.00	285.00	<b>GREYSHEET GRADING STANDARDS</b>				
1996 W Smithsonian Anniversary BU / 1996 W Proof	580.00 +	620.00	280.00 +	305.00	Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.				
1997 W Jackie Robinson BU / 1997 W Proof	2,050.00 +	2,225.00	385.00 +	425.00	<b>MS60-Unc.:</b> May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.				
1997 W Franklin Delano Roosevelt BU / 1997 W Proof	255.00 +	270.00	250.00 +	265.00	<b>MS63-Choice BU:</b> Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.				
1999 W George Washington BU / 1999 W Proof	232.00	247.00	240.00	255.00	<b>MS64-Distinct BU:</b> Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.				
2001 W Capitol Visitor Center BU / 2001 W Proof	490.00	525.00	235.00	245.00	<b>MS67-Superb:</b> Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.				
2002 W Olympic Winter Games BU / 2002 W Proof	250.00	265.00	230.00	245.00	*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

# YOUR SEARCH IS OVER!

You've hit the Mother Lode!  
NTC is your best source for  
Third Party grading.

## GRADING SPECIAL #1

8 - 8 - 8

8 Coin Minimum

8 Business Day Turnaround

\$8 Per Coin

For Coins valued under \$500 each.  
Regular issue U.S. only, 1793 to date.  
For coins valued over \$501 each, \$10 per coin  
For GOLD coins valued under \$1,500 each,  
\$10 per coin.  
Valued over \$1,501 each, \$12 per coin

## GRADING SPECIAL #2

Morgan & Peace  
Dollars

Submit 10 coins (min) at  
\$6 ea. and receive a  
10 business day turnaround.  
For coins valued under \$500 per coin.

## GRADING SPECIAL #3

U.S. Modern Coins  
1955 To Date

\$5 each, minimum 15 coins.  
10 business day turnaround.

"You'll love  
this stuff!"

## Industrial Strength Coin Brightener

Proven for years as the INDUSTRY STANDARD used by professional numismatist and collectors alike world wide to restore mint state and proof coins to the bright - white brilliance that they exhibited the day they were minted! Developed by renowned chemist Gayl Swinehart, PhD.

Contains No Acids or Solvents Environmentally Friendly

Safe on Gold - Silver - Nickel  
Copper - Bronze - Brass

WILL NOT GIVE YOUR COINS THAT "DIPPED" LOOK

MS70 does not change the color of your coin but does remove the tarnish and surface contamination allowing the natural beauty of the original surface to show as bright as the day your coin left the mint. Surface contamination is p.v.c., tarnish, fog, oil, dirt, ect. MS70 is a blend of industrial detergents and surfactants designed to remove surface contamination from metal without disturbing the metal surface itself.

When MS70 is applied the surfactants (wetting agents) first break the surface tension of the contamination then the detergents is MS70 go to work as you "work" the coin as directed on the label instructions by suspending the contamination so that it may be rinsed away leaving a bright metal surface as undisturbed as the day the coin was made.

MS70 IS AVAILABLE IN MOST COIN SHOPS OR YOU MAY ORDER BY CALLING WITH VISA OR MASTERCARD OR SEND \$7.95 PLUS \$3 POSTAGE TO:

Let Us Set Records With Your Collection!

# Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

## 8 GREAT REASONS TO JOIN TODAY!

### 12 ISSUES OF NUMISMATIST.

Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

### BORROW THE BOOK BEFORE YOU BUY THE COIN.

The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

### LEARN WHAT THE EXPERTS KNOW!

The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

### SAVE MONEY.

The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

### INSURANCE.

Insure your collection for as little as 50 cents per \$100 of value. Your homeowners' policy can't match the rates or the coverage.

### GRADING AND CONSERVATION SERVICES.

Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

### ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.

Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

### MEDIATION SERVICES.

Mediation for numismatic disputes is available through the ANA.

## the COIN DEALER newsletter MONTHLY SUPPLEMENT

COPYRIGHT 2004 COIN DEALER NEWSLETTER, A DIVISION OF CDN INC.

Reprint of any issue without permission is expressly forbidden by law.

EXECUTIVE DIRECTOR Pauline Miladin  
EDITOR Keith M. Zaner

PUBLISHER Shane Downing  
CIRCULATION & ADVERTISING Betty Morris

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet), both of which report the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight seen. The Supplement may be certified or "Raw" (uncertified) but the grading MUST ADHERE to the current standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market: such Bids may include the cost of a coin plus the costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than the certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid, but will be strongly influenced by sells which are lower than current Bid Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Greysheet) provides Bids for certified coins only.

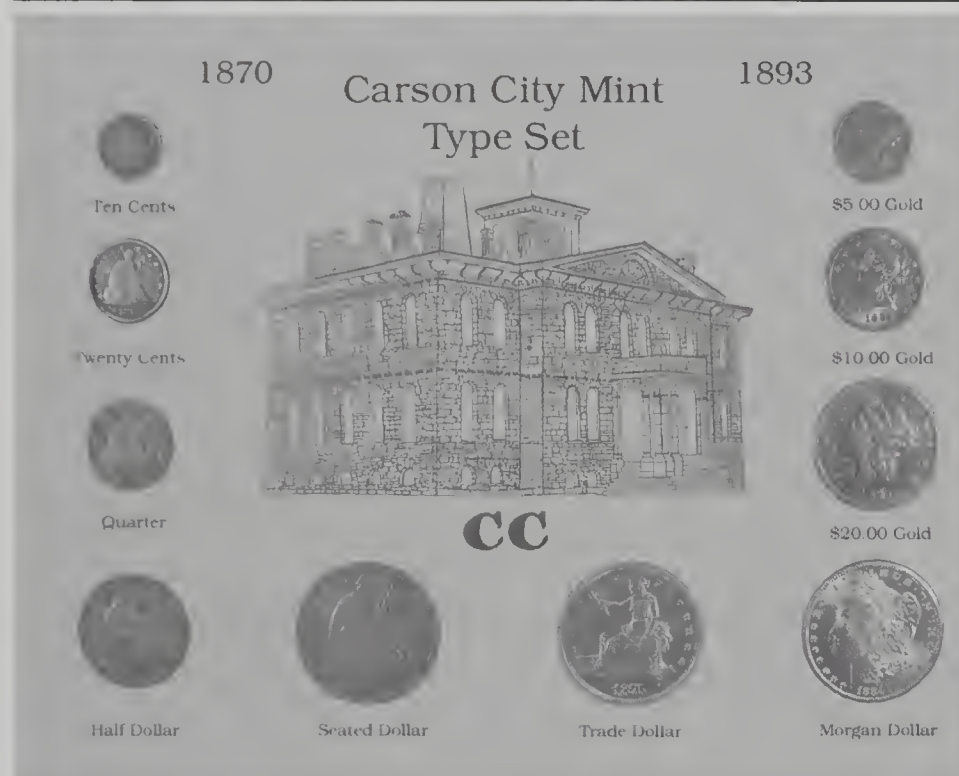

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

INVESTORS NOTE: The prices in the Newsletter are from Dealer-to-Dealer transactions. As an investor, you may buy and sell coins through a dealer for a fee.

Subscription Information: A subscription to the weekly Coin Dealer Newsletter (Greysheet) is: \$54.00 for six months, \$98.00 for one year and \$162.00 for two years. Phone: (310) 515-7369

Address all subscription remittances to:

mance from the time the Carson City Mint ceased producing coins in 1893, until the early years of the 21<sup>st</sup> century prices have consistently risen for all issues. Not all of the dates and denominations have clipped along at the same pace because some, in fact, have far outpaced others. This of course depends on rarity and demand. Coins like the 1876-CC 20-Cent piece, 1873-CC *Without Arrows* Dime and Quarter and 1870-CC Double Eagle have all been stellar price performers. Yet, from decade to decade, even the common dates have registered healthy price gains.

Your results will depend on several key factors, not least of which will be the rarity and grades of the coins in your collection. The rarest coins in the highest states of preservation will naturally possess the greatest potential for price gains. This is true in any market, not just rare coins. Buyers will pay more for "showroom fresh" limited production used cars with low mileage, rare special edition collectable magazines in Mint condition, scarce high quality *Coca Cola* memorabilia, first edition Barbie dolls without flaws, and endless other products influenced by short supply and high demand.

Another essential element in the profitability equation is the purchase price. If the true market value of a "CC" coin is \$500 and you pay \$1,000, you will automatically be placed in an unfavorable position. According to this scenario, the buy/sell margin is an imposing hurdle to overcome. Your coin needs to appreciate 100% before you break even, let alone reap a profit. Although the most desirable coins from the Carson City Mint will not be available at discounted prices, you need to research the market to insure that you are making prudent purchases. In regards to some of the dates with a "CC" mintmark, it is often difficult to determine what a fair price is, due to the infrequency of market appearances. However, with the assistance of knowledgeable numismatic advisors and a study of comparative market prices using other coins that have sold, it will not be difficult to arrive at an equitable price.

Other than rarity, grade, and purchase price, what is another component to consider when evaluating the profit potential of a 10-piece Type set of Carson City coins? An often-overlooked factor is holding time. How long do you intend to retain your collection? In most cases, the longer you own it the greater the return. Although there is no formula for retention versus profitability, in general, a minimum holding time of five years should be appropriated. However ten to twenty years are considered optimal. Ample evidence of this is seen when studying auction prices realized from one decade to the next. In my book,

"The Mint on Carson Street," numerous examples are cited of specific "CC" coins realizing significant price gains when tracked through auctions. These numbers do not lie.

There are **no guarantees**, of course, that 10-piece Type sets of "CC" coins will appreciate in value, or any "CC" coins for that matter, however, indicators suggest it. If the main drivers of investment potential are applied, Carson City coins should perform as well as, or better than the best rare coins in the marketplace. Consider, for example, the following indicators leading to steady growth in any investment vehicle:

❑ **Demand** – It is undeniable that coins from the Carson City Mint are in demand. They are the rage of eBay shoppers, and auction companies are scurrying to secure more "CC" consignments.

❑ **Low Supply** – Since there is an estimated survival rate of no more than 300,000 "CC" Silver and Gold Type coins and 4.5 million or fewer Morgan Silver Dollars, the population base is **significantly** affected by every slight increase in demand.

❑ **Market Share** – The "CC" collector base is as healthy as any segment of the U.S. rare coin market. There is no way the Carson City market could be considered faddish or esoteric.

❑ **Growth** – With interest increasing in Europe and Asia, combined with the steady advances in Internet activity, the "CC" bug is biting growing numbers of excited collectors every day all over the world. Nearly every week, in the commentary sections of the *Coin Dealer Newsletter* and *Certified Coin Dealer Newsletter*, mention is made of how strong the Carson City market is participating. This appears to be the long-term trend.

❑ **Prices** – As in any market, participants look for steady upward price movements as a sign of stability. With "CC" coins, there have not been any big peaks and valleys in recent years, just consistent climbing activity on the charts. It seems reasonable to expect this to continue into the future.

Until the 1970s, prices for Carson City coins as a whole lagged behind other areas of the U.S. rare coin market. With the advent of the GSA "CC" Morgan Dollar sales from 1972 to 1980, these coins with the double letter mintmark began to make up for lost time. Price appreciation was gradual, and at times brisk, never experiencing the irrational exuberance of other segments of the coin market. As the 21<sup>st</sup> century dawned, it had become apparent that Carson City coins were destined to be major contenders for collector's discretionary spending capital. Record prices had been established for key issues, such as the 1873-CC *Without Arrows* Dime and Quarter, the 1876-CC 20-Cent piece and the 1870-CC Double Eagle. Yet at the same time, it appeared as if prices for the majority of dates in the "CC" series had only reached the tip of the iceberg in relation to coins from other series. In conclusion, it can be argued that when the true rarity of "CC" coins as a series is fully appreciated, and increased demand exerts pressure on the limited supply, prices will soar and collectors will look back on these early years of the 21<sup>st</sup> century as *the good old days* in terms of pricing.

Are you hungry for the adventure and reward associated with collecting these delightful coins from the legendary Carson City Mint, or have you already been feasting at the delectable banquet table of "CC" delights? If you are looking for a way to dig in, why not grab a plate and begin walking through the buffet line and start filling it with the ingredients needed to complete a 10-piece Type set of Carson City coins. Upon completion, you will experience a sensation greater than the relaxing fulfillment you feel after dining on a succulent Thanksgiving dinner; and in the case of your coin collection, you will be able to enjoy it every day afterward rather than wait for a special holiday occasion.

# Another Satisfied Consignor!

Steve Deeds  
Bowers and Merena Auctions  
18022 Cowan, Suite 200A  
Irvine, CA 92614

Dear Steve:

Bowers and Merena did a fabulous job in marketing and selling my Buffalo Nickel collection. The auction results and level of buyer interest was impressive.

I would also like to compliment you on the cataloging and descriptions of my coins. Thank you very much.

Sincerely,

Carl Womack

Steve Deeds has more than four decades of experience in the rare coin industry. Now President of Bowers and Merena Auctions, he prides himself on being able to form trusting relationship with clients that are aimed toward helping them realize the highest prices possible through the auctioning of their rare coins and currency. "Much of my success, and that of my clients, comes from my ability to make consignors and bidders feel comfortable with me," says Steve. "The most profitable relationships in numismatics are those built upon trust and confidence."

Find out how Steve Deeds can help you realize the strongest possible prices. What he did for Carl Womack, consignor of the #1 PCGS Registry Set of Buffalo Nickels with Varieties, he can also do for you. Call Steve today at 800-458-4646. He'll take care of the rest.

# How does YOUR recommended coin dealer measure up?

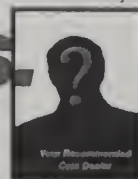

When selecting a coin dealer, it is important to know who you are choosing. Don't take a recommendation heard on the street, or in only one newsletter. Doing so could mean the difference between whether you choose a dealer with long-standing industry experience and recognition, or an upstart who could be gone tomorrow, or somewhere else altogether when you need to sell!

With over 25 years of professional experience and award-winning service to the rare coin industry, Mike Fuljenz is considered one of the most skilled dealers in numismatics by many. Bring this to any conference and compare Mike Fuljenz to any dealer or coin salesman. Compare any rare coin dealer's track record with Mike Fuljenz, and see how they measure up.

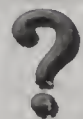

Mike Fuljenz

# Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

## 8 GREAT REASONS TO JOIN TODAY!

### 12 ISSUES OF NUMISMATIST.

Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

### BORROW THE BOOK BEFORE YOU BUY THE COIN.

The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

### LEARN WHAT THE EXPERTS KNOW!

The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

### SAVE MONEY.

The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

### INSURANCE.

Insure your collection for as little as 50 cents per \$100 of value. Your homeowners' policy can't match the rates or the coverage.

### GRADING AND CONSERVATION SERVICES.

Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

### ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.

Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

### MEDIATION SERVICES.

Mediation for numismatic disputes is available through the ANA.

## CDN MONTHLY SUPPLEMENT newsletter

Vol. XXIX No. 12 December 10, 2004 Single copy price: \$4.00

### CLASSIC U.S. COMMEMORATIVE SLEEPERS!

by Anthony J. Swiatek

Back in 1997, I had highly recommended in my newsletter, *the Swiatek Report*, acquisition of the 1997-W Jackie Robinson Uncirculated Commemorative \$5 Gold issue. There were approximately 4,100 coins sold at the pre-issue cost of \$180. When the regular sale price of \$205 went into effect, this Gold Half Eagle appeared to go into dormancy. Only another 400 pieces were purchased. When permission was given to return to the pre-issue asking price, I again called for its acquirement labeling it a first class acquisition. Fortunately for today's owners, only 724 more pieces were sold, giving us a total production of just 5,174 pieces. Today's *CDN Greysheet* Bid is \$2,125!

Unfortunately, most prospective buyers of U.S. Mint Commemorative coinage began to disfavor the said, as well as today's numismatically successful lower mintage productions, struck from 1995. Why? They were tired of seeing coin values of the 1982-1994 productions head south. Mintages were just too high for any real secondary market to materialize. Thus, fewer sales and lower populations were the aftereffect.

The introduction of the 50 State Quarters Program which acted as a major numismatic catalyst, introduced many new collectors into our hobby. Greater attention was given to those low mintage productions, such as the 1995-1996 Olympic coinage, the 1997 Law Enforcement issues, the 1996-W Smithsonian \$5 Unc, etc. TV marketing of these Modern Commems, especially encapsulated by NGC and rated MS69 through PR70 was becoming quite popular. Instant profits on eBay were realized for the early bird U.S. Mint recipients of those new issues. Ditto major gains for those lower mintage issues when sold. And yes, let's not forget the 1997-W Jackie Robinson \$5 UNC which was a \$700 coin in late 1999 and now has risen to the \$2,125 *CDN* Bid level!

Let us examine our classic Commemorative coinage (1892-1954) for those very-underrated or sleeper issues. First, I've chosen the **Arkansas Centennial** series. Scrutinize these Production Figures:

I want to focus on the 1939 P, D, S coinage. As you can observe, there only exists a mere 2,100 pieces struck at each facility. That translates into one bag of Half Dollars worth \$1,050 face value or one bag for each of the three Mints (PDS) delivered to the Arkansas Centennial Commission. Also, be aware that these remembrance or souvenir pieces were produced as regular circulating coinage. After striking they were counted, bagged, shipped and not given the tender loving care as received by current modern mint

coinage. What do you believe would happen today if the U.S. Mint were to announce the sale of a three piece PDS set of coins and/or individual offering of any of the three issues flaunting a mintage of only 2,100 pieces? How quickly do you believe such an offering at \$50 each or even \$100 each struck only in Proof or Unc condition would be sold out? Can you imagine the bickering from those who were shut out?

While the aforesaid is a pipe dream, you do have the opportunity to acquire such a coin(s) right now! Presented are *Greysheet* Bid values for the 1939 Arkansas 3-piece set graded MS-63 and loftier:

1939 Arkansas 3-Piece Set

Total	154	343	306	105	5

One Arkansas Centennial Half Dollar was granted the lofty grade of MS-68 by PCGS. It brought \$29,900 at auction. Concerning coin values, there was a 1939-S "Ark" MS-67 which brought \$5,500 at auction, while another sold for \$7,500. How is that possible? Just remember that value is based on the coin's overall makeup. How eye appealing is the coin? Is the luster dull or flashy or somewhere in between? How strong is the strike? How is the coin's primary and secondary focal areas effected by the size of surface negatives such as bag marks or hairline scratches? How attractive is the coin's toning if present? Does it flaunt a rainbow-like play of colors on one or both sides of the coin, or is the toning just average for the issue or just unattractive. Is the coin a premium quality (PQ) piece? Upon examination, does the probable buyer envision the coin being upgraded by one or even two points? All combine to establish a value. Howbeit, according to current *Greysheet* values, I believe the 1939 Arkansas Centennial Half Dollar in the values listed in the presented grades is very undervalued. Highly recommend adding this issue to your collection in grades MS-63 and higher - encapsulated by the major grading services.

Another issue to consider within the series is the 1938 Arkansas P,D,S set. Its original production was 6,000 coins from each of the Mints. That's three bags of 2,000 pieces, making up each facility's production. Lack of sales caused the return of 2,850 "Arks" from the said to be returned to the Philadelphia Mint. These coins were

scheduled for melting and possible reincarnation into the 1939 issue. Thus, the 1938 date flaunts a final net mintage figure of only 3,150 pieces! I previously broached the imaginative possibility of "what if the U.S. Mint were to offer a

The CDN MONTHLY SUPPLEMENT is a supplement to the weekly COIN DEALER Newsletter (Greysheet); both report the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight seen. The coins may be certified or "Raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Bids reported also consider activity in the certified SIGHT-UNSEEN market; such Bids may include consideration of all costs attendant to certification for a particular service. Bids for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The CDN may not change Bid just because a dealer lowers his Bid but will be strongly influenced by sells which are lower than current Bid/Ask levels. The weekly CERTIFIED COIN DEALER Newsletter (Bluesheet) provides Bids for certified coins only

coin with a 2,100 mintage or even lower? Well here is another low mintage offering. Let's study its values and census figures.

Examining these census figures, I strongly believe this issue is quite undervalued. Remember that the chart values are for a 3-piece set. Individual dates, as you can see, have a lesser population and are worth more.

The MS-67 population is quite limited for the 1938 Arkansas Centennial issue. At the August, 2004 ANA auction, a PCGS MS-67 1938-P example which is frosty white, brought \$8,050. Ditto for a PCGS 1938-D encapsulation that is a lightly toned white piece with light peripheral toning. An even nicer MS-67 PCGS 1938-D creation displaying exceptional eye-appeal with light dove grey toning brought \$9,775 during a November 2003 auction. As previously exclaimed, a coin's value is contingent upon its total makeup and upgrade possibilities. If you are enthralled by the aforementioned insight, good! There is more to come. Would you believe there exists rarer and equally as rare issues (mintage-wise) than the 1939 Arkansas Centennial strikings? They exist and are stupid-cheap!

Behold the following 1934-1938 Daniel Boone Bicentennial Commemorative half dollar chart!

Focus your eyes upon the 1935 issue with Small Date 1934. Two varieties were created for the year 1935. Variety one omitted any reference to Daniel Boone's birth. When the error was discovered, the Mint added a Small 1934 to the coin's reverse design, just above

1934-38 Daniel Boone Bicentennial Commemorative Half Dollars					
Date	Business Strikes	Assay Coins	Proofs	Melted	Net Mintage
1934	10,000	7	4?	~ ~ ~	10,000
1935	10,000	10	4?	~ ~ ~	10,000

1935-D (Sm '34)	2,000	3	4?	~ ~ ~	2,000
1935-S (Sm '34)	2,000	4	4?	~ ~ ~	2,000
1936	12,000	12	4?	~ ~ ~	12,000
1936-D	5,000	5	4?	~ ~ ~	5,000
1936-S	5,000	6	4?	~ ~ ~	5,000
1937	15,000	10	4?	5,200	9,800
1937-D	7,500	6	4?	5,000	2,500
1937-S	5,000	6	4?	2,500	2,500
1938	5,000	5	4?	2,900	2,100
1938-D	5,000	5	4?	2,900	2,100
1938-S	5,000	6	4?	2,900	2,100

the words PIONEER YEAR to represent an anniversary date. (A companion date, 1734, the year of his birth is omitted entirely from the issue: Oh well!)

Only 2,000 of these pieces were struck at the Denver and San Francisco branch Mints for the issue!

The Philadelphia 1935/34 or 1935 with Small 1934 added is a common Type coin. When figuring out the 3-piece set price, don't divide by three. Divide by two and deduct the Type coin value for the prospective acquisition grade. The rare census coin should be valued higher. Let's study its values and census figures.

Based on current Greysheet values, this issue is very undervalued especially in MS-65 and loftier condition. There are currently nine labeled MS 68/1935/34 Denver strikings and six MS-68 San

The Coin Dealer Newsletter (USPS # 008248) is published by CDN Inc., 18807 Crenshaw Place, Torrance, CA 90504-5923. Periodicals postage paid at Torrance, CA. POSTMASTER: Send address changes to CDN, P.O. Box 11099, Torrance, CA 90510.

Francisco pieces. Only two Boones struck at Philadelphia of the 1935/34 issue were graded MS-68. WOW! During the 2004 ANA auction, a PCGS MS-68 "P" Mint, as well as a "D" Mint encapsulation brought \$21,850! Both were lovely eye appealing examples. A wonderful 2,000 mintage rarity to include in your collection, in all grades.

The other issue which is equally as rare - mintage wise - as the 1939 Arkansas creation is the 1938 Boone issue.

All three PDS pieces have the same 2,100 mintage. Check the census for individual rarity.

	Total	97	295	292	173	44	2

Let us ponder its values and population figures:  
One 1938-D Boone Bicentennial Half Dollar was granted the glorious grade of MS-69 by NGC. WOW! Wish it were mine. A 1938-P striking rated MS-68 by PCGS attained a value of \$25,300 at the aforesaid auction. Hopefully, it was your coin.

In the loftier grades of MS-66 the 1939 Arkansas production is the rarest of all the issues discussed here. Howbeit, these low mintage strikings offer collectors of all budget extensities the opportunity to acquire this very undervalued and highly recommended coinage, whose mintage figures we may never see again!

Mr. Reid Wolf  
Consignment Director  
BOWERS AND MERENA AUCTIONS  
18022 Cowan, Suite 200D  
Irvine, CA 92614

Dear Mr. Wolf:

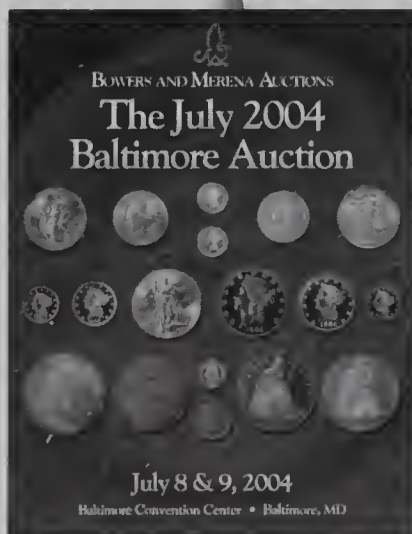

Just a note to thank you for the excellent job performed by you and Bowers and Merena in the auctioning of my various lots at the July 2004 Baltimore Auction. I also found the catalogue to be exceptional, with some superior art work.

The whole experience was a totally satisfying one. The final results exceeded my expectations and please be advised that in the future you and Bowers and Merena Auctions will be the only people I call with all my numismatic dealings.

Again, thank you for all of your help.

Respectfully,

R.G.N.  
New York

## BU ROLLS

The following prices are for top quality rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark - these bring lower prices. "gem" full steps" rolls (when available) bring higher prices. In the Mercury series, "gem" full steps" rolls are worth more than listed prices - particularly the pre-1941 issues. Washington rolls - full or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the 5-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

# Small Change. Big Rewards.

The American Numismatic Association welcomes numismatists of all ages, beginners and experts alike. The ANA can provide you with the knowledge you need to be a confident collector.

## 8 GREAT REASONS TO JOIN TODAY!

### 1 12 ISSUES OF NUMISMATIST.

Your ANA membership includes a subscription to *Numismatist* — the voice of the coin collecting hobby since 1891. Every month, you will receive a new issue filled with dazzling, full-color illustrations, tips on what and how to collect, columns by the hobby's most respected numismatists and much more.

### 2 BORROW THE BOOK BEFORE YOU BUY THE COIN.

The Dwight N. Manley Numismatic Library allows you to expand your horizons by borrowing any of 50,000 books, videos and slide programs. Or let us help you with your research.

### 3 LEARN WHAT THE EXPERTS KNOW!

The ANA is the largest, educational numismatic organization in the world. Members can participate in seminars, home-study courses and Numismatic Theatre presentations.

### 4 SAVE MONEY.

The MoneyMarket has the latest and best in books and supplies, available at a substantial member discount. And new members get a coupon for an additional 10% off Littleton Coin Supplies.

### 5 INSURANCE.

Insure your collection for as little as 50 cents per \$100 of value. Your homeowners' policy can't match the rates or the coverage.

### 6 GRADING AND CONSERVATION SERVICES.

Avoid the middleman — ANA members can submit coins directly to Numismatic Guaranty Corporation (NGC) for grading and Numismatic Conservation Services (NCS) for conservation.

### 7 ANA CONVENTIONS: THE HIGHLIGHT OF THE NUMISMATIC YEAR.

Shop the bourse, attend Numismatic Theatre presentations and club meetings, and enjoy the hobby's largest collection of educational exhibits. The **National Money Show™** (every spring) and the **World's Fair of Money®** (late summer) create opportunities for numismatists across the country to buy, sell, meet and learn with the best.

### 8 MEDIATION SERVICES.

Mediation for numismatic disputes is available through the ANA.
